IN this *Bay State Garden Book* a serious attempt has been made to describe briefly but accurately the great assortment of plant materials, grown by Bay State Nurseries, for garden and landscape development.

Two methods of description have been combined — the graphic and the written — using the latter only sufficiently to explain features which cannot be shown in the drawings. The sketches themselves have been rendered from the standpoint of illustrating the more salient features of form, branching habits, or foliage and flower details.

The descriptions given cannot be absolute on account of the many variables involved. Colors vary with the soil, moisture, and temperature; also in the eye of the beholder. Rates of growth vary between young and old plants. Rates of growth and ultimate sizes both vary under different conditions of soil fertility and moisture, exposures and various climatic factors.

Relatively, however, the descriptions are quite accurate. We believe the manner of presentation will afford a welcome relief to the gardening public which all too often has to make its selections from long-worded descriptions more confusing than clarifying.

Evergreen Trees

Evergreens are architectural in effect; their use in the landscape is dictated by their forms. Hence the proper selection of varieties depends upon the choice of the right forms. The simple silhouettes, which delineate the shapes of the various evergreens, in the margins of the following pages, together with their brief accompanying word descriptions, will help visualization and aid selection of the most suitable varieties for any landscape effect.

To help select the best plant for a given place, we indicate its usual ultimate height and annual rate of growth thus: — 40 feet at 8 inches. The rate of growth is more important than the ultimate height, since it indicates whether a plant will too soon outgrow its contemplated location, or on the other hand, whether it will grow fast enough for the purpose in mind. The figures given are about average for each species. The rates of growth can be accelerated or retarded by supplying or withholding nitrogenous fertilizers.

As usual, Evergreens are dug Balled and Burlapped (B&B) at the prices quoted, unless otherwise specified. 5 to 24 plants of one kind and size are priced at the 10 rate; 25 or more at the 100 rate.

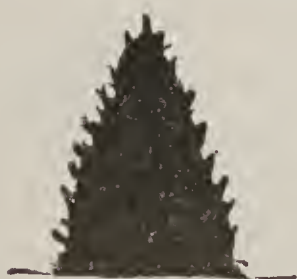

ABIES

Fir

Large symmetrical cones; medium coarse texture; branches usually ascending. Foliage needle type, soft, flat, blunt, usually with pungent fragrance. Prefer moist soils; tolerate fairly dry. Flourish in full sun or partial shade. Rapid growing, firs should not be planted next to buildings. Best use — specimen groups, large screens, hedges, windbreaks.

ABIES arizonica — Arizona Blue Fir

Grows 50 ft. tall at 10 inches per year. Bark pale gray. Needles $\frac{3}{4}$ inches, soft positive blue. New, good; the best blue evergreen.

	Plant	Prices	Per
	1	10	100
12 to 15 in.	\$1.65	\$14.00	\$130.00
15 to 18 in.	2.00	18.00	165.00
18 to 24 in.	2.50	22.50	
2 to 3 ft.	3.25	30.00	
3 to 4 ft.	4.00		

EVERGREEN TREES

ABIES — Continued

A. balsamea — Balsam Fir		Plant Prices Per		
60 ft. at 15 in. yearly. Needles dark above, pale beneath, ¾ in.		1	10	100
4 to 5 ft.		\$3.00	\$27.00

7 to 8 ft.		9.00		
8 to 9 ft.		13.00	120.00	

For large mature specimens prices will be quoted on request.

CHAMAECYPARIS

Retinospora

False Cypress

EVERGREEN TREES

A group containing both dwarf and medium varieties, conical or nearly so. The former are excellent in foundation plantings; the latter only when closely sheared each year, their best use being in specimen groups, border or screen plantings. In this way the graceful sweep of their branches shows to best effect. Foliage in palms or fronds, some very tight, others loose and lacy. Thrive in both dry and moist soils, in full sun and partial shade.

CHAMAECYPARIS obtusa gracilis — Hinoki Cypress

10 ft. at 4 in. yearly. Foliage very dark; fronds tight, short, rounded. A dwarf plant, excellent in foundation plantings. Tender further north.

	Plant 1	Prices Per 10	Per 100
15 to 18 in.	\$2.00	\$18.00	
18 to 24 in.	2.65	24.00	
2 to 2½ ft.	3.00	28.00	

C. pisifera — Sawara Retinospora

40 ft. at 10 in. Fronds medium long, somewhat loose, medium to dark green. Too large growing for foundation planting.

6 to 7 ft.	5.50	50.00	\$450.00
7 to 8 ft.	7.50	70.00	650.00
8 to 9 ft.	10.00	90.00	
9 to 10 ft.	14.00	130.00	
10 to 12 ft.	18.00		

C. pis. aurea — Golden Sawara R.

A golden foliage variety of preceding.

3 to 4 ft.	3.00	27.00	
4 to 5 ft.	3.50	30.00	
5 to 6 ft.	4.50	40.00	
6 to 7 ft.	6.50	60.00	
7 to 8 ft.	8.50	80.00	
8 to 9 ft.	11.00	100.00	

C. pis. filifera — Thread R.

10 ft. at 6 in. Foliage medium to dark; of loose drooping threadlike filaments. Very graceful. Suitable in foundations where blank wall spaces permit its bulk.

4 to 5 ft.	6.00		
5 to 6 ft.	7.50		
6 to 7 ft.	10.00		

C. pis. fil. aurea — Golden Thread R.

8 ft. at 3 in. A bright yellow variety of the preceding; sometimes grows as low dense hassocks.

18 to 24 in. spread	2.25	20.00	
2 to 2½ ft.	3.25	30.00	250.00
2½ to 3 ft.	4.50	40.00	350.00
3 to 4 ft.	5.50	50.00	450.00
4 to 5 ft.	7.50	70.00	650.00
5 to 6 ft.	9.00	80.00	

EVERGREEN TREES

CHAMAECYPARIS — Continued

C. pis. plumosa — Plume Retinospora

30 ft. at 6 in. Unpruned grows moderately loose; sheared, makes dense small cone with thick feathery texture, permissible in foundations. Slightly grayish.

	Plant Prices Per		
	1	10	100
18 to 24 in.	\$2.00	\$18.00	
2 to 3 ft.	2.50	22.50	
3 to 4 ft.	3.50	33.00	
5 to 6 ft.	5.00	45.00	
6 to 7 ft.	6.50	60.00	
7 to 8 ft.	8.00	70.00	\$600.00
8 to 9 ft.	10.00	90.00	650.00

C. pis. plumosa aurea —

Golden Plume R.

Same as preceding; outer foliage golden.

18 to 24 in.	2.20	20.00	
2 to 3 ft.	2.75	25.00	
3 to 4 ft.	3.50	33.00	
4 to 5 ft.	4.25	40.00	375.00
5 to 6 ft.	5.00	45.00	400.00
6 to 7 ft.	6.50	60.00	550.00
7 to 8 ft.	8.50	75.00	
8 to 9 ft.	11.00	100.00	

For large mature specimens prices will be quoted on request.

C. pis. plum. lutescens — Pale R.

18 ft. at 4 in. Similar to preceding, but dwarfer; foliage pale creamy yellow.

3½ to 4 ft.	6.00		
4 to 4½ ft.	7.00	60.00	
5 to 6 ft.	10.00	80.00	

C. pis. squarrosa veitchi — Moss R.

20 ft. at 5 in. Tufty, feathery tiny pointed needles, light gray.

4 to 5 ft.	4.00	35.00	
5 to 6 ft.	5.00	45.00	400.00

JUNIPERUS

Juniper

Cedar

JUVENILE

JUNIPER
FOLIAGE

MATURE

An unusual family having many interesting forms — broad cones, narrow sharp spires, tight straight columns, broad spreading and low creeping. All are fine textured. Foliage is of two types — unexpanded scales (mature form), and

EVERGREEN TREES

short sharp needles (juvenile type). All Junipers are full sun and dry soil plants, but tolerate a fair degree of moisture. All except the largest are excellent for foundations.

JUNIPERUS chinensis — Chinese Juniper

25 ft. at 10 in. yearly. Foliage both scale and needle, light gray green.

	Plant Prices Per
	1 10 100
4 to 5 ft.	\$5.00
5 to 6 ft.	6.00
6 to 8 ft.	7.00

J. chin. albovariegata —

Whitetip Chinese Juniper

20 ft. at 5 in. Dense compact needle foliage, dark steel-gray with creamy tips.

3 to 4 ft.	4.00	\$36.00	\$330.00
4 to 5 ft.	5.00	45.00	400.00
5 to 6 ft.	6.50	60.00	550.00

J. chin. columnaris —

Columnar Chinese Juniper

15 ft. at 8 in. Dense needle foliage, medium steel gray.

6 to 8 ft.	8.00
8 to 10 ft.	11.00
10 to 12 ft.	14.00

J. chin. pfitzeriana — Pfitzer J.

15 ft. spread at 10 in. Graceful arching fronds of scales and needles; medium green, slightly gray. Usable at foundations if pruned occasionally.

15 to 18 in. spread	2.00	18.00	
18 to 24 in. spread	2.75	25.00	225.00
2 to 2½ ft. spread	3.50	32.50	300.00
6 to 7 ft. spread	12.00	110.00	
7 to 8 ft. spread	14.00	130.00	
8 to 9 ft. spread	17.00	160.00	
9 to 10 ft. spread	20.00	190.00	
10 to 12 ft. spread	25.00	230.00	

J. chin. sargentii — Sargent J.

8 ft. spread at 5 in. Gray-green scales and needles. For rockeries and banks.

15 to 18 in.	2.50
18 to 24 in.	3.50
2 to 3 ft.	4.50
3 to 4 ft.	6.50

J. communis columnaris — English Juniper

20 ft. at 6 in. Sharp needles 5/8 in., inner ones medium green, outer gray. Blue berries 1/5 in.

5 to 6 ft.	3.00	27.00
6 to 7 ft.	3.75	35.00
7 to 8 ft.	4.50	

EVERGREEN TREES

JUNIPERUS — Continued

J. com. cracovica — Polish Juniper

18 ft. at 6 in. Similar to preceding; branches looser, slightly wavy; foliage less gray.

Plant Prices Per		
1	10	100

2 to 3 ft.	\$1.80	\$16.00
3 to 4 ft.	2.00	18.00
4 to 5 ft.	2.75	25.00
5 to 6 ft.	3.25	30.00
6 to 7 ft.	4.00	35.00

J. com. depressa — Spreading Field Juniper

10 ft. spread at 5 in. Needle foliage, light grayish green, turns dull purple in winter.

3 to 4 ft.	4.00	
4 to 5 ft.	5.00	45.00
5 to 6 ft.	6.00	55.00
6 to 8 ft.	7.00	65.00

J. com. hibernica — Irish Juniper

10 ft. at 6 in. Very dense straight column. Rich silvery gray needle outer foliage, over medium green inner.

3 to 4 ft.	2.25	20.00	
4 to 5 ft.	2.60	24.00	210.00
5 to 6 ft.	3.00	27.00	240.00
6 to 7 ft.	3.50	30.00	270.00
7 to 8 ft.	4.00	35.00	

EXTRA HEAVY SPECIMENS

5 to 6 ft.	4.50	40.00	
6 to 7 ft.	5.50	50.00	450.00
7 to 8 ft.	6.50	60.00	

J. com. suecica — Swedish Juniper

10 ft. at 6 in. Dense; light green overcast with silvery needles.

3 to 4 ft.	2.25	20.00	180.00
4 to 5 ft.	2.60	24.00	210.00
5 to 6 ft.	3.00	27.00	240.00
6 to 7 ft.	3.50	30.00	

J. horizontalis — Creeping J.

6 ft. spread at 6 in. Creeps closely over the ground. Sharp green foliage. Best use, the rockery or as ground cover on sandy slopes.

2 to 2½ ft.	3.00	27.00
2½ to 3 ft.	3.75	32.50
3 to 4 ft.	4.50	40.00

“6 ft. spread at 6 in.” — as mentioned in the preceding description — means that the ultimate diameter of that plant will be 6 feet; and that it will increase in diameter about 6 inches each year. Pruning will hold it back. Fertilizing will make it grow faster. Use this and similar information to help you select the right plant for each place.

5 to 24 plants of one kind and size are priced at the 10 rate; 25 or more at the 100 rate.

EVERGREEN TREES

JUNIPERUS — Continued

J. hor. depressa plumosa — Flat Plumed Juniper

8 ft. spread at 6 in. Medium green short needle to slightly expanded scale foliage. Purple-red in winter.

	Plant 1	Prices 10	Per 100
2½ to 3 ft.	\$3.30	\$30.00	
3 to 3½ ft.	4.00	35.00	\$320.00
3½ to 4 ft.	4.50	40.00	360.00
4 to 5 ft.	5.50	50.00	440.00

J. hor. douglasi — Waukegan J.

6 ft. spread at 6 in. Similar to J. horizontalis; color bluish gray.

2½ to 3 ft.	3.30	30.00
3 to 3½ ft.	4.20	38.00

J. japonica — Japanese Juniper

6 ft. spread at 5 in. Foliage mostly scale type; rich medium green, slight cast of gray. Little known but desirable.

18 to 24 in.	2.75	25.00	225.00
2 to 2½ ft.	3.30	30.00	270.00
2½ to 3 ft.	4.20	38.00	340.00
3 to 4 ft.	5.00	45.00	

J. jap nana — Dwarf Japanese J.

4 ft. spread at 3 in. A more compact form of the preceding.

12 to 15 in.	2.25	20.00
15 to 18 in.	3.00	27.00
18 to 24 in.	3.50	30.00

J. sabina — Savin Juniper

5 ft. spread at 5 in. Graceful; fine textured scale foliage and slightly arching branchlets. Medium dark green; bronzy in winter.

15 to 18 in.	1.75	16.00	150.00
18 to 24 in.	2.35	21.00	
2 to 2½ ft.	3.40	30.00	
2½ to 3 ft.	4.00	36.00	
3 to 4 ft.	5.00	45.00	400.00
4 to 5 ft.	7.00	65.00	
5 to 6 ft.	9.00	80.00	
6 to 8 ft.	12.00		

J. sab. tamariscifolia — Tamarix Savin

4 ft. spread at 3 in. Dense, compact, dark scale foliage with slight mixture of silvery needles. Small fronds arching, graceful.

15 to 18 in.	1.75	16.00
18 to 24 in.	2.65	24.00
2 to 2½ ft.	4.00	36.00
2½ to 3 ft.	5.00	45.00
3 to 3½ ft.	6.00	

EVERGREEN TREES

JUNIPERUS — Continued

J. squamata — Chinese Spreading J.

4 ft. at 3 in. Low, prostrate, compact; short needle foliage, bluish gray green. Another rockery plant.

	Plant	Prices	Per
	1	10	100
2 to 2½ ft.	\$2.40	\$22.00	
2½ to 3 ft.	3.30	30.00	
3 to 3½ ft.	4.00	35.00	

J. squam. meyeri — Meyer J.

7 ft. at 4 in. Neither erect nor spreading; partly both. Needle foliage, strong blue.

18 to 24 in.	3.00
3 to 3½ ft.	6.00
4 to 5 ft.	7.00

J. virginalis — Dwarf Chinese J.

5 ft. spread at 4 in. Scale foliage, light green.

18 to 24 in. spread	2.50	22.50	\$200.00
2 to 2½ ft. spread	3.00	27.00	250.00
2½ to 3 ft. spread	3.75	34.00	300.00
3 to 3½ ft. spread	4.50	40.00	360.00
3½ to 4 ft. spread	6.50	60.00	

J. virginiana — Redcedar

40 ft. at 8 in. Young plants needle foliage; older trees mostly scale. Color range, light, medium, dark green, also bluish cast. Blue berries 1/5 in.

3 to 4 ft.	2.25	20.00	180.00
4 to 5 ft.	2.75	25.00	225.00
5 to 6 ft.	3.50	32.00	280.00
6 to 7 ft.	4.50	42.00	360.00
7 to 8 ft.	5.50	50.00	450.00
8 to 9 ft.	8.00	75.00	700.00
9 to 10 ft.	12.00	110.00	
10 to 12 ft.	17.00	160.00	

J. vir. glauca — Blue Cedar

30 ft. at 6 in. Decidedly blue form of preceding; scale foliage entirely.

3 to 4 ft.	3.25	30.00	270.00
4 to 5 ft.	4.50	40.00	360.00
5 to 6 ft.	6.00	55.00	
6 to 7 ft.	8.00	70.00	
10 to 12 ft.	20.00		

J. vir schottii — Schott Redcedar

30 ft. at 6 in. Yellow-green variety of *J. virginiana*.

3 to 4 ft.	4.00	36.00	330.00
4 to 5 ft.	5.00	45.00	400.00
5 to 6 ft.	6.00	55.00	500.00
6 to 7 ft.	7.50	70.00	
7 to 8 ft.	9.00		
8 to 10 ft.	11.00		

EVERGREEN TREES

PICEA

Spruce

A numerous family having two main divisions — large rapid-growing trees for specimen, screen, hedge and windbreak plantings; also true dwarfs and pygmies eminently suited to the foundation. The latter comprise some of the rarest and most desirable dwarf evergreens.

The Spruces are of exceeding hardiness, and withstand severe conditions. Full sun plants, they prefer medium soils; will endure tremendous droughts and poor soils.

Spruce needles are stiff, sharp pointed, and when broken disclose a square or diamond cross section. They have a somewhat “balsamy” pungence.

PICEA canadensis — White Spruce

60 ft. at 12 in. Most compact of the larger growing group. Needles $\frac{5}{8}$ in. medium green to gray-silver.

	Plant Prices Per		
	1	10	100
3 to 4 ft.	\$2.25	\$19.00	\$175.00
4 to 5 ft.	3.00	27.00	240.00
5 to 6 ft.	4.00	36.00	320.00
6 to 7 ft.	5.00	45.00	400.00
7 to 8 ft.	7.00	65.00	
8 to 10 ft.	9.00	80.00	
10 to 12 ft.	15.00		

P. excelsa — Norway Spruce

100 ft. at 1½ ft. yearly. The most popular large Spruce. Foliage medium to very dark, $\frac{3}{4}$ in.

18 to 24 in.	1.00	9.00	80.00
2 to 3 ft.	1.35	12.00	90.00
3 to 4 ft.	1.65	14.00	125.00
4 to 5 ft.	2.00	18.00	165.00
5 to 6 ft.	3.25	30.00	
6 to 7 ft.	5.00	45.00	
7 to 8 ft.	7.00	65.00	
8 to 10 ft.	10.00	90.00	

For large mature specimens prices will be quoted on request.

FOR HEDGES. We have a special Hedge Grade of Norway Spruce, most reasonably priced. Let us quote on your specific requirements.

EVERGREEN TREES

PICEA — Continued

The three following varieties of Norway Spruce are very dwarf and compact, beautiful rare specimens.

P. exc. maxwelli — Maxwell Spruce

5 ft. spread at 2 in. A dense hassock type pygmy; many tiny branchlets; needles ½ in., medium green, slightly gray. Very fine.

	Plant	Prices	Per
	1	10	100
2 to 2½ ft.	\$15.00	\$140.00	
2½ to 3 ft.	20.00	180.00	

P. exc. remonti — Remont Spruce

14 ft. at 4 in. Dense broad dwarf cones. Needles ½ in., very dark. An excellent tree of positive character.

12 to 15 in.	4.50	42.00	\$400.00
15 to 18 in.	6.00	55.00	500.00
18 to 24 in.	8.00	75.00	
2 to 2½ ft.	10.00	90.00	
2½ to 3 ft.	14.00	125.00	
3 to 3½ ft.	17.50	160.00	
3½ to 4 ft.	22.00	200.00	
4 to 4½ ft.	27.00		
6 to 7 ft.	90.00		
7 to 8 ft.	110.00		
8 to 9 ft.	135.00		

P. exc. procumbens — Prostrate Spruce

5 ft. spread at 1½ in. Another pygmy hassock. Needles ⅜ in., dark and handsome. Excellent.

9 to 12 in. spread	3.00	27.00	250.00
12 to 15 in. spread	4.50	42.00	380.00
18 to 24 in. spread	9.00	85.00	
2 to 2½ ft. spread	12.00	110.00	
2½ to 3 ft. spread	15.00	140.00	

P. glauca conica — Dwarf Alberta Spruce

20 ft. at 3 in. In spite of its ultimate height, a true dwarf. A beautiful gem. Very fine textured with slender needles ½ in. long, exceedingly dense. Sometimes single topped, sometimes with two or more peaks. Strong medium green summer and winter.

2 to 2½ ft.	5.00	46.00	420.00
2½ to 3 ft.	6.00	56.00	520.00
3 to 3½ ft.	7.00	66.00	620.00

EXTRA HEAVY SPECIMENS

2½ to 3 ft.	8.00	75.00	
3 to 3½ ft.	10.00	90.00	
3½ to 4 ft.	12.00	110.00	
4 to 4½ ft.	15.00	140.00	
4½ to 5 ft.	18.00	170.00	
5 to 5½ ft.	22.00	200.00	

PICEA — Continued

P. omorika — Serbian Spruce

80 ft. at 8 in. yearly. Perhaps the choicest large Spruce. Often very compact when small; later fairly compact with graceful sweep of branches. Needles $\frac{5}{8}$ in., medium green above, silvery under. When large the limbs are festooned with hanging branchlets. Still rare. Very fine.

	Plant 1	Prices 10	Per 100
15 to 18 in.	\$1.90	\$18.00	\$165.00
18 to 24 in.	2.10	19.00	180.00
2 to 3 ft.	2.75	24.00	

P. pungens — Colorado Spruce

80 ft. at 10 in. Stiff horizontal branches sag with an outward sweep when large. Needles 1 in., very sharp, light green. The best family of Spruces for the seashore; flourishes even when sprayed with salt water.

18 to 24 in.	1.25	11.00	
2 to 3 ft.	1.40	12.50	110.00
3 to 4 ft.	1.65	15.00	135.00
4 to 5 ft.	2.35	21.00	180.00
5 to 6 ft.	3.50	32.00	290.00
6 to 7 ft.	5.50	50.00	450.00
7 to 8 ft.	7.50	70.00	650.00
8 to 10 ft.	10.00	90.00	

P. pung. glauca — Blue Colorado S.

Has all the qualities of the preceding, but the color ranges from pale to strong blue.

18 to 24 in.	1.95	17.50	150.00
2 to 3 ft.	3.00	27.00	240.00
3 to 4 ft.	4.00	36.00	320.00
4 to 5 ft.	5.50	50.00	450.00
5 to 6 ft.	7.00	65.00	600.00
6 to 7 ft.	9.00	85.00	
7 to 8 ft.	12.00	110.00	
8 to 10 ft.	16.00	150.00	
10 to 12 ft.	20.00	180.00	

P. pung. kosteri — Koster Blue S.

A brilliant silver-blue form of preceding.

18 to 24 in.	4.50	42.00	380.00
2 to 2½ ft.	6.00	55.00	
3 to 3½ ft.	8.00	75.00	
5 to 6 ft.	16.00	150.00	
6 to 7 ft.	18.00	160.00	
7 to 8 ft.	21.00	190.00	
8 to 10 ft.	25.00		
10 to 12 ft.	40.00		

A curious fact is the extreme versatility or adaptability of the three varieties of Colorado Spruce described above. Native to the higher hills and the mountainsides of the West, they are also at home along our eastern seashore. Dry air, wet air, salty air—the Colorado Spruces enjoy them all. They thrive in windswept locations and in dry soils, yet flourish in all soils except the very wet.

PINUS

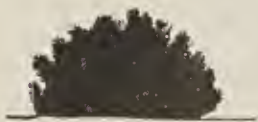

Pine

The Pines are mostly large to huge trees, of coarse shaggy texture at maturity, with a few smaller to dwarf sorts. The larger species have somewhat compact cone shapes when young and may be kept in that habit for a considerable period. Their best use however is as large specimens, either singly, in groups or as large hedges, windbreaks and screens. The smaller varieties have a limited use at the house foundations but probably are best as “facers” for group plantings of the larger sorts.

Few Pines care for very moist soil. They thrive in medium to dry soils and flourish in very poor soils. They are full sun trees entirely. The Pines withstand the most windswept exposures.

PINUS mughus — Mugho Dwarf Pine

10 ft. spread at 4 in. Broad rounding dense, height less than breadth. Needles 1 to 3 inches, thick and strong, color variable from medium to dark. Exceedingly beautiful and valuable for covering dry gravelly and sandy slopes.

	Plant 1	Prices 10	Per 100
15 to 18 in. spread	\$1.95	\$18.00	
18 to 24 in. spread	2.25	21.00	
2 to 2½ ft. spread	3.00	27.00	250.00
2½ to 3 ft. spread	4.00	36.00	320.00
3 to 3½ ft. spread	5.50	50.00	450.00
3½ to 4 ft. spread	6.50	60.00	550.00
4 to 5 ft. spread	8.00	75.00	700.00
5 to 6 ft. spread	11.00	100.00	900.00

P. nigra — Austrian Pine

60 ft. at 10 in. Bold needles 4 to 6 in., dark. Excellent for seashore. Very tough, rugged and handsome.

18 to 24 in.	1.80	16.50	150.00
2 to 3 ft.	2.25	21.00	190.00
3 to 4 ft.	3.30	30.00	270.00
4 to 5 ft.	4.50	42.00	400.00
5 to 6 ft.	6.00	55.00	500.00
6 to 7 ft.	9.00	80.00	700.00
7 to 8 ft.	12.00	110.00	1000.00

On larger specimens we will quote at your request.

EVERGREEN TREES

PINUS — Continued

P. nigra globosa — Globe Austrian Pine

12 ft. at 4 in. A very dense compact globe form of the preceding. Distinctive, beautiful, rare.

	Plant Prices Per		
	1	10	100
18 to 24 in.	\$8.00		
2 to 2½ ft.	14.00		
6 to 7 ft.	90.00		
7 to 8 ft.	110.00		

P. resinosa — Red Pine

70 ft. at 18 in. The longest leaf of any hardy Pine; needles 6 to 10 inches, very dark.

18 to 24 in.	1.80	\$16.00	\$140.00
2 to 3 ft.	2.25	20.00	180.00
6 to 7 ft.	7.00	65.00	600.00
7 to 8 ft.	9.00	85.00	800.00
8 to 10 ft.	13.00	120.00	1100.00

For large mature specimens prices will be quoted on request.

P. strobus — White Pine

100 ft. at 18 in. Undoubtedly the finest Pine for the northeast. Compact and symmetrical when young changing later to loose open tops with sweeping spreading branches, and straight sturdy trunks. Needles 4 to 5 inch, slender deep green with silvery gray bloom. One of the three best large evergreens.

18 to 24 in.	1.80	17.00	160.00
2 to 3 ft.	2.50	22.50	200.00
3 to 4 ft.	3.00	27.00	250.00
4 to 5 ft.	4.25	40.00	375.00
5 to 6 ft.	5.50	50.00	450.00
6 to 7 ft.	7.50	70.00	650.00
7 to 8 ft.	10.00	90.00	800.00
8 to 10 ft.	15.00	140.00	

For large mature specimens prices will be quoted on request.

P. sylvestris — Scotch Pine

60 ft. at 15 in. Loose, open, irregular. Needles 2 to 4 inches, heavy, often curly, varying green to gray blue.

18 to 24 in.	1.60	14.00	120.00
2 to 3 ft.	1.90	17.50	
3 to 4 ft.	2.75	25.00	

Prices of large mature specimens will be quoted on request.

Those who live or travel in New England will pardon our praise of the White Pine. When young it is symmetrical and moderately compact. In age it is wide-spreading, assuming the habit of a shade tree. At any age its needles are soft and feathery, with a beautiful grayish overlay, and exude a pungent fragrance. Surprisingly, the White Pine, despite its rapid rate of growth, can be kept to moderate size by pruning. Demonstration hedges now fifty years old have been kept down to a height of less than ten feet.

PSEUDOTSUGA

Douglas Fir

This is the second of the three best large evergreens. Of medium conical habit when young; in age huge columns gracefully tapering toward a sharp top. The branches are generally sharply ascending. The needles resemble Spruce but are soft and usually longer, $\frac{7}{8}$ to $1\frac{1}{4}$ inches. In color a moderate variation, usually medium to dark green, often with a grayish to bluish overlay. The Douglas Fir is a full sun tree, but is entirely cosmopolitan as to soils, moisture or drought. It attains an ultimate height of 70 feet at about 15 inches yearly. Withstands seashore conditions magnificently. Even the smallest home needs at least one Douglas Fir.

PSEUDOTSUGA douglasi — Douglas Fir

	Plant Prices Per		
	1	10	100
4 to 5 ft.	\$4.00	\$36.00	\$330.00
5 to 6 ft.	5.00	45.00	400.00
6 to 7 ft.	6.00	55.00	500.00
7 to 8 ft.	8.00	75.00	700.00
8 to 10 ft.	13.00	120.00	1100.00
10 to 12 ft.	18.00	160.00	

Prices of large mature specimens will be quoted on request.

SCIADOPITYS verticillata — Umbrella Pine

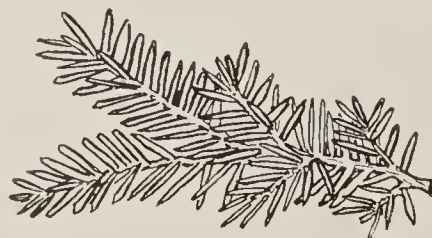

40 ft. at 6 in. Not a Pine, but its narrow tubular leaves, 4 to 5 inches, resemble thick pine needles. Develops into a most magnificent large narrow cone. Very dark when planted in moist soil, containing plenty of humus.

12 to 15 in.	2.70	24.00	220.00
15 to 18 in.	3.50	32.00	280.00
18 to 24 in.	4.50	40.00	

TAXUS

Yew

The several members of the Yew family comprise the aristocrats of the medium, dwarf and pygmy types of evergreens. All of them are exceedingly handsome; all are remarkably hardy. The many varieties afford types and forms which lend themselves to use in a great variety of landscape effects.

EVERGREEN TREES

The leaves are soft needles similar to those of Hemlock but usually a little wider and heavier; some of them longer. The colors range from bright to dark blackish green. Most varieties maintain this positive color year around, although a few take on attractive bronze hues.

All Yews thrive in shade; all but one flourish in sun. While they survive in extremely poor soils they, of course, prefer a soil of decent fertility. They tolerate extreme ranges of moisture or the lack of it. All except the two Canada varieties are improved by moderate applications of Lime from time to time.

The landscape uses of Yews are many. They are ideal in the foundation or other planting where small slow growing plants are vital. Yews are perfect facers to groups of large evergreens. They are perfect subjects for shearing and are the best plants from which to make topiary forms. Certain varieties make the best hedges of medium heights and one variety takes the place of Dwarf Box Edging in severe climates. Every home deserves the liberal use of Yews.

TAXUS baccata repandens —

Spreading English Yew

8 ft. spread at 4 in. yearly. Hassock shape with slight droop to outer branches. The only hardy variety of the English Yew. Color dark blue green.

	Plant Prices Per		
	1	10	100
12 to 15 in. spread	\$2.00	\$17.50	
15 to 18 in. spread	2.50	22.50	\$200.00
18 to 24 in. spread	3.50	32.00	280.00
2 to 2½ ft. spread	4.50	40.00	
2½ to 3 ft. spread	6.00	55.00	

T. canadensis — Canadian Yew

10 ft. spread at 8 in. For shade only; burns in the sun.

12 to 15 in. spread	1.80	16.00	140.00
15 to 18 in. spread	2.00	18.00	160.00
18 to 24 in. spread	2.50	22.00	200.00
3 to 4 ft. spread	5.50	50.00	
4 to 5 ft. spread	7.00	65.00	

T. canad. stricta — Dwarf Edging Yew

3 ft. at 2 in. The only satisfactory dwarf edging evergreen in our severe New England climate. The best substitute for Dwarf Boxwood. Hardy, very dwarf, fine texture, dark, easily grown, shears perfectly, thoroughly tested for past twenty years. Can be kept trimmed to less than one foot indefinitely.

6 to 8 in.	\$480.00 per M.	6.00	54.00
8 to 10 in.	575.00 per M.	7.00	63.00

3½ to 4 ft. spread	16.00	150.00	

TAXUS MEDIA

Hybrid Yew

A most interesting new race of Yews. They are believed to be natural hybrids between certain forms of English Yew and one or two forms of Japanese Yew. Some of the beautiful features of the English Yews and the absolute hardness of the Japanese Yews are combined. This race contains many individuals of hitherto unknown types; to the more spectacular forms, names have been given and are listed below as varieties of *Taxus media*. There still remain many unnamed types which we here list as *Taxus media*. They vary somewhat in texture and arrangement of the needles; also in habit. One universal trait of these mixed forms is that they invariably have full centers. All of them are very beautiful, highly desirable and of inestimable value in a planting of evergreens.

T. media spreading strains

8 to 12 ft. spread at 4 to 8 in. yearly.

	Plant Prices Per		
	1	10	100
15 to 18 in. spread	\$2.50	\$22.50	\$200.00

2½ to 3 ft.	5.50	50.00	420.00
3 to 3½ ft.	6.50	60.00	520.00
3½ to 4 ft.	8.00	75.00	680.00

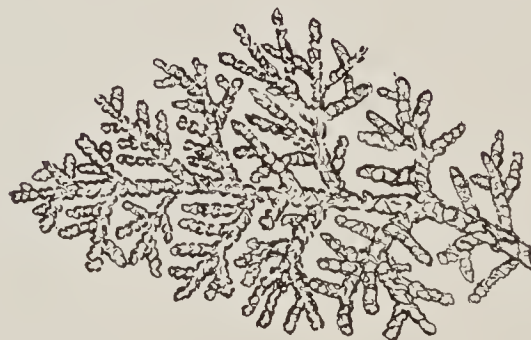

T. med. hicksi — Hicks Yew

10 ft. at 6 in. Blue green foliage.

18 to 24 in.	2.75	25.00	
2 to 2½ ft.	3.50	32.50	300.00
2½ to 3 ft.	4.75	45.00	425.00
3 to 3½ ft.	6.50	60.00	550.00
3½ to 4 ft.	8.50	80.00	
4 to 4½ ft.	10.00	90.00	

NOTE — We have a notable collection of large Hybrid Yews from 4 to 8 feet in size. All are of great beauty and value for the larger garden. We shall be glad to describe them and quote prices at your request.

THUJA

Arborvitae

The most used family of evergreens. The assortment of forms provided by its several members give it an adaptability for wide landscape and garden use. Large broad cones and columns for accent use. Medium slim spires for vertical effect. Medium to small cones, some sharp pointed, some round topped; globose forms for planting as dwarf evergreens. Every variety of Arborvitae is desirable as hedge material. Very hardy, easy to transplant. Prefer moist soil but tolerate moderately dry conditions. Thrive in full sun and partial shade. Foliage is of flat lacy fronds. In the several varieties the fronds are borne in different manners, thus giving various texture effects. Extremely amenable to shearing.

THUJA occidentalis — American Arborvitae

40 ft. at 10 in. yearly. Fronds somewhat loose and open. Medium green.

	Plant 1	Prices 10	Per 100
18 to 24 in.	\$1.35	\$12.00	\$110.00
2 to 3 ft.	1.60	14.00	120.00

HEDGES. In all of the above varieties of Arborvitae we have a special HEDGE GRADE, attractively priced. Tell us your hedge requirements — the height you wish it to grow, and the length of hedge you desire. We will quote you on the best variety for your specific needs, and the exact number needed.

TSUGA

Hemlock

The third of the three best large evergreens. Essentially large trees, the Hemlocks make excellent specimens and groups. Since their branches are slender with many twigs, they shear excellently. For this reason they can be used for hedges from 4 feet in height up. For this same reason individuals can be kept to a dwarf size indefinitely. This feature makes Hemlock the Universal Evergreen. While Hemlocks make their fastest growth in moist soil, they flourish in nearly all soils except barren and drouthy types. Equally at home in full sun, half shade or deep shade.

TSUGA canadensis — Canada Hemlock

80 ft. at 12 in. yearly. Young branches ascending, old ones spreading; branchlets droop gracefully. Dark live green.

	Plant Prices Per		
	1	10	100
18 to 24 in.	\$2.00	\$18.00	\$160.00
2 to 3 ft.	3.00	27.00	240.00
3 to 4 ft.	4.00	36.00	330.00
4 to 5 ft.	5.50	50.00	450.00
5 to 6 ft.	7.50	70.00	650.00
6 to 7 ft.	8.50	80.00	750.00
7 to 8 ft.	11.00	100.00	900.00
8 to 9 ft.	14.00	130.00	1200.00

10 to 12 ft.	22.00	210.00	2000.00
12 to 14 ft.	26.00		

We have a stock of Hemlocks in HEDGE GRADE at very moderate cost. Let us quote on your needs.

T. caroliniana — Carolina Hemlock

60 ft. at 10 in. Needles slightly longer than preceding; medium green with gray cast. Thrives in dryer soil than preceding.

18 to 24 in.	1.80	16.00	
2 to 3 ft.	2.60	24.00	220.00
3 to 4 ft.	3.50	32.00	300.00
4 to 5 ft.	5.00	45.00	400.00
5 to 6 ft.	7.00	65.00	

T. diversifolia — Japanese Hemlock

25 ft. at 3 in. Medium green, tinged gray, needles short.

15 to 18 in.	2.00	18.00	160.00
18 to 24 in.	2.50	22.50	200.00
2 to 2½ ft.	3.00	27.00	

Evergreen Shrubs

This group, also known as Broadleaf Evergreens, contains many of the most beautiful and useful plants for effective landscape development. Their forms vary, some are typical shrub shape, others minute shrub shape, some are ground covers while others are vines. Many of them bear exquisite flowers—as the Laurel and Rhododendron.

ARCTOSTAPHYLOS uva-ursi — Bearberry

Makes a low dense viny mat. Particularly good for sandy slopes. Equally good in sun or shade. Red berries. Will not live in a rich soil. Needs sand with a little leafmold—or light sandy loam.

2 yr. 3 in. pots

BUXUS

Box

Boxwood

Beautiful compact, dense slow growing shrubs with smooth glossy leaves 5/8 in. long. Unfortunately tenderish throughout the greater part of New England, they should be used only in spots sheltered from wind and sun.

BUXUS sempervirens — English Boxwood

5 ft. x 5 ft. at 3 in. (For rugged climates we recommend the substitution of some of our strains of Taxus for their greater hardiness.)

12 to 15 in. B&B
15 to 18 in. B&B

.50	4.50	40.00
.60	5.50	50.00

CALLUNA *Heather*

Tiny clumpy bush form, seldom growing more than 18 inches high, spreading into dense mats. Flowers are spikes of tiny bells in late summer. Equally good in sun or shade and in any fair acid soil of medium moisture. Excellent ground cover and bank plants.

CALLUNA vulgaris — Common Heather

15 in. at 3 in. yearly. Flowers pink.

6 to 8 in.	\$.60	\$ 5.00	\$ 45.00
-----------------	--------	---------	----------

C. vulg. alba — White Heather

15 in. at 3 in. Flowers white. Foliage light green.

6 to 8 in.60	5.00	45.00
-----------------	-----	------	-------

C. vulg. alporti — Alport Heather

18 in. at 4 in. Flowers rosy carmine. Foliage vivid.

6 to 8 in.60	5.00	45.00
-----------------	-----	------	-------

C. vulg. aurea — Golden Heather

15 in. at 3 in. Flowers pink. Foliage golden.

6 to 8 in.60	5.00	45.00
-----------------	-----	------	-------

C. vulg. cuprea — Bronze Heather

15 in. at 3 in. Flowers pink. Foliage bronze.

6 to 8 in.60	5.00	45.00
-----------------	-----	------	-------

C. vulg. hirsuta — Hairy Heather

15 in. at 3 in. Flowers pink. Foliage covered with minute gray fuzz.

6 to 8 in.60	5.00	45.00
-----------------	-----	------	-------

C. vulg. nana — Moss Heather

12 in. at 2 in. Dense tufts or small clumps. Very dark green; in fall turns red-to-yellow-bronze. Flowers tiny, pink. Very fine.

4 to 6 in. clumps60	5.00	45.00
6 to 8 in. clumps75	6.50	60.00

CHAMAEDAPHNE calyculata — Leatherleaf

2½ ft. at 4 in. Graceful arching shrub with white waxy flowers. Foliage turns red-brown in winter. Full sun in wet places.

18 to 24 in. B&B	1.75	15.00	125.00
------------------------	------	-------	--------

DAPHNE cneorum — Rose Daphne

18 in. at 3 in. Foliage dark and rich. Flowers pink, fragrant. May to November.

9 to 12 in. B&B	\$1.00	\$9.00	\$80.00
12 to 15 in. B&B	1.50	12.50	100.00
15 to 18 in. B&B	1.90	17.00	150.00

EVERGREEN SHRUBS

ERICA *Heath*

Similar to Heather, less hardy, the Heaths give a flowering range from April to December.

ERICA carnea — Spring Heath

12 in. at 2 in. Flowers rosy pink, April, May.

Plant Prices Per

1 10 100

6 to 8 in. \$.50 \$4.50 \$40.00

E. darleyensis — Darley Heath

12 in. at 2 in. Flowers deep pink, November and December. Flowers best further South.

4 to 6 in.50 4.50 40.00

E. stricta — Corsican Heath

12 in. at 2 in. Flowers purple, July to September.

4 to 6 in.50 4.50 40.00

E. tetralix — Crossleaf Heath

12 in. at 2 in. Flowers pink, July, August. Foliage gray green.

4 to 6 in.50 4.50 40.00

E. vagans — Cornish Heath

12 in. at 2 in. Flowers purple-red, August and September.

4 to 6 in.50 4.50 40.00

EUONYMUS

Wintercreeper

An extremely useful and beautiful family; very hardy. Most varieties have a two-fold habit — planted against a wall they climb like vines; planted away from support they make individual shrubs with dense habit. Planted closely they make a medium tall ground cover. This versatility gives Euonymus a great range of usefulness and adaptability in landscape use. Equally at home in sun or shade; enjoys a moist soil but tolerates dry conditions. Universally rich in color. Several varieties bear greater or lesser quantities of scarlet berries showing through an expanded orange-yellow capsule.

EUONYMUS radicans — Wintercreeper

Leaves $\frac{3}{4}$ in. dark dull green, whitish veins; as a specimen grows 3 inches yearly; as a vine grows faster.

Plant Prices Per

1 10 100

2 yrs. \$.50 \$4.20 \$35.00

3 yrs.60 5.00 40.00

E. rad. carrieri — Glossy Wintercreeper

Largest leaves of all; 1 to 2 in., glossy. Bears some berries. Broad round bush or bushy vine.

HEDERA helix — English Ivy

Mostly a vine; slightly tender here—better to South. Leaves 2 to 3 in.

$3\frac{1}{2}$ in. pots, 18 in. tops50	4.50	40.00
--	-----	------	-------

H. hel. baltica —

Baltic or Hardy English Ivy

Perfectly hardy here. A creeper rather than a climber. Makes dense ground cover; trails downward when planted inside a retaining wall. Leaves white-veined, 2 to 3 in.

$3\frac{1}{2}$ in. pots, 2 ft. tops50	4.50	40.00
---	-----	------	-------

H. hel. gracilis —

Small-leaf English Ivy

Dwarf form of H. helix. Leaves 1 to $1\frac{1}{2}$ in.

$3\frac{1}{2}$ in. pots60	5.00	
-------------------------------	-----	------	--

ILEX *Holly*

A very beautiful group of plants; one species having the typical, spiny Christmas Holly leaves; others having spineless narrow oval leaves. Slow growing, their general use is in connection with dwarf evergreens. Equally suited to sun or shade; rather better color in at least partial shade. Prefer sandy loams, moderately moist.

ILEX crenata convexa —

Boxleaf Japanese Holly

6 ft. spread at 5 in. Spreading shrub habit. Leaves 1/2 inch, glossy.

	Plant Prices Per		
	1	10	100
18 to 24 in. spread B&B	\$2.25	\$20.00	
2 to 2½ ft. spread B&B	2.75	25.00	
2½ to 3 ft. spread B&B	3.25	30.00	

***I. glabra* — Inkberry**

4 ft. at 4 in. Leaves 1 to 1½ inch, glossy. Glossy black berries, 1/4 inch. Makes excellent hedges similar to Boxwood.

12 to 15 in. clumps B&B	2.00	18.00	160.00
15 to 18 in. clumps B&B	2.40	22.00	200.00

EVERGREEN SHRUBS

LEUCOTHOE catesbaei — Drooping Leucothoe

4 ft. at 5 in. yearly. Loose open habit; gracefully arching branches. Best in shade. Flowers white, waxy, May. Leaves 3 to 5 in., glossy, dark; purple-red in winter.

	Plant	Prices	Per
	1	10	100
12 to 15 in. B&B	\$1.00	\$9.00	\$80.00
15 to 18 in. B&B	1.40	12.00	100.00
18 to 24 in. B&B	1.80	16.00	140.00
2 to 2½ ft. B&B	2.40	22.00	

PACHISTIMA

A time-tested plant, only recently come into general use. Small slow-growing dense erect plants. Foliage dark. Not fussy as to soil or exposure. Can be used as individuals, dwarf edgings, mat-like ground covers, or in the rockery. Very beautiful, hardy and useful.

PACHISTIMA canbyi — Canby Pachistima

12 in. at 2 in. Leaves ½ in. Twigs very slender. Tiny reddish flowers, May.

	Plant	Prices	Per
	1	10	100
4 to 6 in. field grown	\$.50	\$4.50	\$40.00
6 to 8 in. field grown60	5.50	50.00

PACHYSANDRA terminalis —

Japanese Pachysandra

8 in. Ground cover plants of many erect stems. Small white flowers, May, June. Thrives in all soils and exposures—best color in shade.

From 3 in. pots or field grown	2.00	15.00
\$130.00 per thousand		

PIERIS

Andromeda

Acid-soil plants, related to Rhododendrons and Laurel. They thrive in either sun or shade, and in all except wet soils. The Andromedas are true dwarfs and can be used in Dwarf Evergreen plantings or mixed with other Evergreen Shrubs. The flowers are white and similar to Lily-of-the-Valley.

PIERIS floribunda — Mountain Andromeda

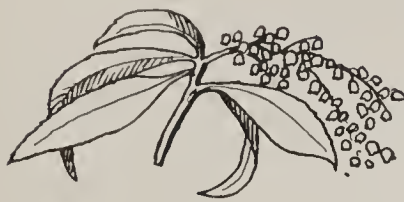

4 ft. at 3 in. Low, dense, rounding. Leaves 1½ in., dark. Very hardy. Flowers for 4 to 6 weeks in late April and May.

	Plant	Prices	Per
	1	10	100

VINCA

Myrtle

Periwinkle

A handsome creeping ground cover. Planted every 8 to 12 inches, soon makes a dense mat about 8 inches high. Leaves dark, glossy, 1 inch. Good in sun or shade. Thrives under trees where grass will not live. Flowers freely in late spring and somewhat during summer and fall.

VINCA minor — Blue Periwinkle

Flowers showy bright blue.

Pot grown and field grown ..
\$120.00 per thousand

RHODODENDRON

The Rhododendrons are the aristocrats of the Evergreen Shrubs, and beyond doubt the most beautiful. Large permanent leaves, of dark hue under good culture, several sorts are glossy. Preferring some shade, they thrive and actually flower most freely in the sun.

Rhododendrons are acid soil plants and do not like lime or fresh manure excepting in very acid soils. They do not like stiff clay soils, but prefer medium to sandy types with good humus, and fair moisture content. Once established, they withstand considerable drought.

Experience is proving that Rhododendrons will thrive in many sections where previously it was thought impossible — as certain areas in the central states. Probably the absence of certain soil micro-organisms in soils where Rhododendrons had not been grown formerly made their growth difficult. If desired, we can furnish small amounts of Rhododendron soil for innoculating your soil.

Rhododendrons have a wide range of use — in foundation plantings, in borders, in woodland groups.

Our prices for Rhododendrons include
Balling and Burlapping.

EVERGREEN SHRUBS

RHODODENDRON carolinianum — Carolina Rhododendron

6 ft. at 4 in. yearly. Leaves 2 to 3 inches, dark olive green. Flowers in many dense clusters, late May; light to deep pink. Perhaps the most profuse bloomer of all Rhododendrons. Excellent.

	Plant 1	Prices 10	Per 100
15 to 18 in.	\$2.50	\$22.50	\$200.00
18 to 24 in.	2.75	25.00	225.00

4 to 4½ ft.	8.00	70.00	

For extra heavy specimen clumps we will quote on request.

R. minus — Piedmont Rhododendron

8 ft. at 6 in. Loose habit, otherwise similar to R. Carolina. Flowers rosy red, middle to late June. Prefers shade.

18 to 24 in.	2.00	18.00	
2 to 2½ ft.	2.40	21.00	
2½ to 3 ft.	3.00	27.00	
3 to 3½ ft.	3.75	32.00	

R. wilsoni — Wilson Rhododendron

4 ft. spread at 4 in. Low dense rounding. Leaves 2 inches, medium green, glossy. Flowers small, deep rose, late June, early July. Little known but good.

15 to 18 in.	2.70	24.00	210.00
18 to 24 in.	3.60	33.00	300.00
2 to 2½ ft.	4.50	40.00	360.00
2½ to 3 ft.	5.50	50.00	

HYBRID RHODODENDRONS

The most showy and beautiful of all. Individual flowers 1 to 3 inches in diameter; clusters from 4 to 8 inches. Plants usually grow 6 or 8 feet high and at rate of about 6 inches yearly. Leaves are 4 to 7 inches long, glossy.

Our Hybrid Rhododendrons are in two groups

— named varieties and seed-grown mixed sorts. The named varieties come true to stated color. Being derived from at least one tenderish parent, and grown by grafting, they are inclined to be a little finicky under severe conditions. THE SEED-GROWN STRAINS ARE HARDIER.

SEED-GROWN HYBRID RHODODENDRONS

We have grown these here in the north from named varieties acclimated here. From early infancy they have been subject to our severe climate; only the hardy ones have survived. Being on their own roots they survive very adverse conditions. We grow many acres of them in full sun, in gravelly soils, without any protection whatever. They are tough, rugged, and hardy.

The colors range from delicate pale pink to medium and deep pink; pale, medium and deep lavender to purple; a fair percentage of rosy reds, a small proportion of medium and dark reds.

In this group are found many color tones not obtainable in named varieties. Also the very largest flowers are found in this group.

Deciduous Trees

This group contains Shade Trees, Screen Trees, Flowering Trees, as well as Special-Feature Ornamental Trees. Deciduous Trees, particularly the larger sorts, are architectural in form; the proper selection of forms makes possible the best landscape and garden effects. Interesting and beautiful skyline effects are possible through the use of trees with contrasting forms, as well as contrasting textures.

At the prices here given all Deciduous Trees are dug bare-rooted, unless otherwise denoted by the letters "B&B". If other trees are wanted B&B we shall be glad to quote for that service.

ACER Maple

The Maples are perhaps the leading Shade Trees, particularly for town use and on the smaller home properties. They are easy to transplant, either spring or fall, and grow rapidly. They are not particularly subject to any serious pest or disease. Generally dense, large and many leaved, the Maples afford shade most quickly of all trees. At home in all soils and exposures.

ACER dasycarpum — Silver Maple

80 ft. at 3 feet yearly. Branchlets arching. Leaves 3 to 5 in.

	Plant	Prices Per

FAGUS

Beech

Slow-growing trees which ultimately make magnificent huge specimens — tall, broad and stately. Leaves are strongly veined and remain late. If rapid growth is desired of Beeches, liberal application of leafmold or humus will be helpful. Best transplanted in spring.

FAGUS americana — American Beech

80 ft. at 1½ ft. Bark very light gray. Leaves 4 to 5 inches, dark green, bright yellow in fall.

	Plant	Prices	Per
	1	10	100
3 to 4 ft. B&B	\$2.75	\$24.00	\$220.00

8 to 10 ft. X B&B	8.00	75.00	

M. theifera — Tea Crab

The following description was given by the late Dr. E. H. Wilson, former Keeper of the Arnold Arboretum, who discovered this tree: "Rigid of branch, with wands of blossoms often 15 ft. long, the Chinese M. theifera is the very quintessence of Crabapple loveliness. It is a small tree, seldom exceeding 20 feet in height, with sparse, upright and spreading, rather zig-zag branches. When in blossom the whole branch is transformed into a floral plume into which it is impossible to thrust a finger without touching a flower. The petals are reddish pink in the folded bud, white or delicately stained with pale pink when fully expanded."

2 to 3 ft., Bare Roots80	7.00	60.00
3 to 4 ft., Bare Roots	1.00	9.00	80.00
4 to 5 ft., Bare Roots	1.40	12.00	100.00
5 to 6 ft. B&B	2.00	18.00	160.00

QUERCUS

Oak

A magnificent race of sturdy trees, suited to all soils but hard to establish in dry soils. In good soil rather rapid growing. SELDOM SUCCEED IN FALL TRANSPLANTING, except when dug with extra large balls of earth. Prices quoted on request for this special service.

QUERCUS alba — White Oak

100 ft. at 3 ft. yearly. Bark pale gray.

	Plant Prices Per		
	1	10	100
5 to 6 ft.	\$3.50	\$32.00	
6 to 8 ft.	4.00	36.00	
8 to 10 ft.	5.00		

Q. bicolor — Swamp White Oak

100 ft. at 3 ft. Bark rougher than preceding.

10 to 12 ft.	5.00
12 to 14 ft.	6.00
14 to 16 ft.	8.00
16 to 18 ft.	11.00
18 to 20 ft.	15.00

Q. coccinea — Scarlet Oak

100 ft. at 3 ft. Leaves brilliant scarlet in fall.

6 to 8 ft.	4.00	\$37.50	\$350.00
8 to 10 ft.	5.00	45.00	
10 to 12 ft.	6.00		

Q. palustris — Pin Oak

80 ft. at 3 ft. Leaves red in autumn.

6 to 8 ft.	2.40	21.00	180.00
8 to 10 ft.	3.00	27.00	240.00
10 to 12 ft., 1½ to 1¾ in. caliper	4.00	35.00	300.00
12 to 14 ft., 2 to 2½ in. caliper	6.50	60.00	
14 to 16 ft., 2½ to 3 in. caliper	10.00		

Large mature specimens, prices quoted upon request.

DECIDUOUS TREES

QUERCUS — Continued

Q. rubra — Red Oak

80 ft. at 3 ft. Leaves rich dark red in fall.

	Plant	Prices	Per
	1	10	100
6 to 8 ft.	3.75	35.00	300.00
8 to 10 ft.	4.50	42.00	390.00
10 to 12 ft.	6.50	60.00	550.00
12 to 14 ft.	8.50	80.00	

Large mature specimens, prices quoted upon request.

SALIX

Willow

Medium height trees of graceful habit and rapid growth. Prefer medium to very moist soils. Leaves mostly very narrow; branchlets slender.

SALIX alba — White Willow

60 ft. at 4 ft. Leaves silvery beneath.

	Plant	Prices	Per
	1	10	100
6 to 8 ft.	\$1.50	\$12.50	
8 to 10 ft.	1.80	16.00	
10 to 12 ft.	2.25	20.00	

S. babylonica — Babylon Weeping Willow

50 ft. at 3 ft. Most graceful drooping habit.

6 to 8 ft.	1.80	16.50	\$150.00
8 to 10 ft.	2.40	22.00	200.00

S. discolor — Pussy Willow

10 ft. at 1 ft. Shrubby small tree. Buds open soft, fuzzy, gray.

5 to 6 ft.	\$1.00	\$8.50	
6 to 8 ft.	1.40	12.00	

S. niobe — Golden Weeping W.

40 ft. at 3 ft. Very weeping. Younger branchlets bright yellow.

6 to 8 ft.	1.90	17.00	
-----------------	------	-------	--

S. pentandra — Laurel Willow

25 ft. at 3 ft. Leaves very dark, very glossy. Best use as screen tree.

4 to 5 ft.	1.00	8.50	
5 to 6 ft.	1.25	10.00	
6 to 8 ft.	1.50	13.00	

S. pent. Globe Head Standards

The preceding species, trained to single trunks, 5' to 6 ft. high, with heads trimmed roundish. Summer effect similar to Bay Tree.

Heads 2 to 2½ ft. broad	2.75	25.00	225.00
-------------------------------	------	-------	--------

S. tristis — Dwarf Bush Willow

3 ft. Dwarf compact broad clump. Thrives on medium to very dry soils. Foliage pale gray.

15 to 18 in.65	5.50	50.00
18 to 24 in.75	6.50	55.00
2 to 3 ft.90	7.50	60.00

DECIDUOUS TREES

SASSAFRAS variifolium — Sassafras

40 ft. at 1½ ft. Young twigs green.
Leaves smooth, 5 inches, brilliant orange,
scarlet in fall. Small yellow flowers May.

4 to 5 ft. B&B
6 to 8 ft. B&B

TILIA Linden

Big handsome trees of rapid growth and some of the best ornamentals for either lawn or street planting. Leaves heart shaped, some small, some large. Flowers small, sweet-scented, yellow, in early summer. Thrives in all soils.

DECIDUOUS TREES

TILIA americana — American Linden

100 ft. at 4 ft. Leaves 5 to 9 inches.

	Plant Prices Per	
	1	10 100
6 to 8 ft.	\$2.00	\$18.00
8 to 10 ft.	2.70	24.00
10 to 12 ft.	3.50	32.00
12 to 14 ft.	5.00	45.00
14 to 16 ft.	6.00	54.00
16 to 18 ft.	8.00	72.00

Large heavy-calipered specimens, prices quoted upon request.

T. vulgaris — European Linden

100 ft. at 4 ft. Leaves 3 to 4 inches. Symmetrical growing and rapid; quickly grows into shade giving proportions. The best species.

6 to 8 ft.	2.00	18.00	\$160.00
8 to 10 ft.	3.00	27.00	250.00
10 to 12 ft., 1½ to 1¾ in. caliper	4.00	36.00	330.00
10 to 12 ft., 1¾ to 2 in. caliper	5.00	45.00	400.00
12 to 14 ft., 2 to 2½ in. caliper	6.00	55.00	500.00
12 to 14 ft., 2½ to 3 in. caliper	7.00	63.00	
14 to 16 ft., 2½ to 3 in. caliper	8.00	72.00	

NOTE — We have a few Lindens of the above and other varieties in mature sizes, having trunk calipers up to 10 inches, and broad well-formed heads. Let us quote you.

ULMUS

Elm

Undoubtedly the best known and most loved shade tree in New Engla Our American Elm is unequalled in beauty of graceful arching form. Ot species give other desirable habit characteristics. Thrives in all soils except d

ULMUS americana — American Elm

120 ft. at 4 ft. Leaves 3 to 4 inches. Best of the arching type. A grand tree.

	Plant Prices Per		
	1	10	100
6 to 8 ft.	\$1.10	\$9.00	\$80.00
8 to 10 ft.	1.40	12.00	100.00
10 to 12 ft.	2.00	17.00	140.00
12 to 14 ft.	2.60	23.00	190.00
14 to 16 ft., 2 to 2½ in. cal.	3.50	30.00	250.00
16 to 18 ft., 2½ to 3 in. cal.	5.50	50.00	435.00

We have a fine stock of space-grown, heavy-caliper specimen Elms, from 20 to 35 feet tall, 3 to 6 inch caliper, straight trunks, well-developed heads. Let us quote on your specific requirements.

U. am. molinensis — Moline Elm

60 ft. at 3 ft. Habit similar to Lombardy Poplar. Good.

8 to 10 ft.	1.75	15.00
10 to 12 ft.	2.25	20.00
12 to 14 ft.	3.00	27.00
14 to 16 ft.	4.00	36.00
16 to 18 ft.	6.00	

ULMUS — Continued

U. campestris — English Elm

100 ft. at 3 ft. Less arching than the American. Leaves 2 to 3 inches.

6 to 8 ft.	1.80	16.00
8 to 10 ft.	2.35	21.00

U. glabra camperdowni — Camperdown Elm

Wide flat spreading form grafted onto 5 to 6 ft. stems.

7 yr. heads	10.00	95.00
10 yr. heads	16.00	

U. pumila — Siberian or Chinese Elm

60 ft. at 4 ft. Needs moist soils. Leaves very small, 1½ inches.

8 to 10 ft.	2.50	22.00
10 to 12 ft.	3.00	27.00
12 to 14 ft.	4.00	
14 to 16 ft.	5.00	

Large Tree Moving

Shade Trees as well as Evergreen Trees, five inches in trunk caliper and larger, transplant best when lifted with large balls of earth. This also applies to smaller sizes of certain varieties. By this method large trees can also be successfully transplanted out of season.

For this service we have modern mechanical tree moving equipment, which will move trees up to ten or twelve inches in caliper. Let us quote you on our mature specimen trees, moved into your own home grounds.

Landscape Service

The best and most pleasing landscape and garden effects are the result of careful planning. The selection of the proper plants and their proper placing in the home grounds are most surely obtained by the employment of experts.

We maintain a complete landscape department staffed with trained landscape experts. We operate advantageously within a radius of fifty to one hundred miles from our nurseries. The cost of this service is moderate, and is often entirely saved through prevention of costly errors.

Write or telephone to “Bay State Nurseries, Landscape Department,” addressed either to North Abington, Mass., or to Framingham, Mass. A representative will call at your home at your convenience without charge or obligation.

Deciduous Shrubs

The logical use of Deciduous Shrubs is as "Fillers" between the larger feature or architectural trees. Shrubs give the best effect when planted so as to mass together. Form of Shrubs, therefore, while of some importance, is not of great importance. The most important features of Shrubs are the character of their leaves, flowers, and fruits.

There are in this list several sorts of very beautiful shrubs which, under local conditions, are none too hardy. These we have attempted to call attention to, with some cultural suggestions which may help to make them endure rigorous climates and adverse soils.

Excepting those varieties specifically marked "B&B", all Deciduous Shrubs are regularly dug bare-rooted at the prices given. If desired we will dig other sorts B&B, making the following charges for this service:

12 to 18 in. Shrubs	\$.15 each	3 to 4 ft.	\$.30 each
18 to 24 in.20 each	4 to 5 ft.40 each
2 to 3 ft.25 each	5 to 6 ft.50 each

For extra heavy specimens in the above sizes, as well as for large Shrubs, B&B service charges will be quoted on request.

ACANTHOPANAX pentaphyllum — Fiveleaf Aralia

	Plant	Prices	Per
	1	10	100
8 ft. Leaves 1½ inch, very dark, glossy. Excellent hedge plant. Shade and sun. Black berries, July.			
18 to 24 in.	\$.60	\$5.00	\$40.00
2 to 3 ft.70	6.00	50.00

AMELANCHIER canadensis — Downy Shadblow

10 ft. Clumpy habit. Leaves with slight gray down, 1½ inches. White flowers. May. Fruit maroon, June. Sun and half shade.			
18 to 24 in.80	7.00	60.00
2 to 3 ft.	1.00	8.50	75.00

A. stolonifera — Running Shadblow

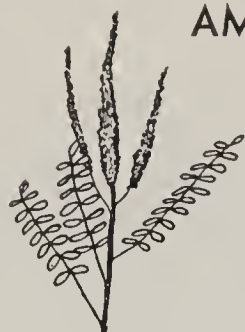

4 ft. Root stocks run under ground sending up many shoots, making a low thicket effect. White flowers, May. Fruit purple, sweet, July.			
18 to 24 in.80	7.00	60.00
2 to 3 ft.	1.00	8.50	
3 to 4 ft.	1.20	10.00	

AMORPHA canescens — Lead Plant

3 ft. Leaves very small, with white wool. Slender spikes, blue flowers, June.			
2 to 3 ft.75	6.50	55.00

DECIDUOUS SHRUBS

AMORPHA — Continued

A. fruticosa — Indigobush

10 ft. Coarse habit. Flowers violet purple, June.

	Plant 1	Prices 10	Per 100
3 to 4 ft.	\$.50	\$4.20	\$36.00

13 ft. Narrow habit. Flowers in many small clusters, June. Bright red berries, brilliant crimson leaves in fall.

2 to 3 ft.75	6.50	55.00
3 to 4 ft.90	8.00	70.00

A. melanocarpa — Black C.

9 ft. Bushy shrub. Glossy black berries.

4 to 5 ft. bushy	1.00	8.50	70.00
5 to 6 ft. bushy	1.35	11.00	90.00

AZALEA

Admittedly "tops" in flowering shrubs, Azaleas give us some of our earliest, some of our most startlingly showiest, some of our most delicate flower colors, as well as a flowering range from early April to early July. While classed as acid soil plants they thrive in soils of considerable range, particularly the Asiatic sorts, which even prefer some lime in the soil.

Azaleas are essentially small shrubs, with maturity height seldom over 8 feet. For this reason they can be used on small home properties as successfully as on larger, or in parks.

Azaleas prefer a moderately moist soil, but succeed on dry. They dislike heavy clays. Leafmold or humus is always welcome. Azaleas flourish alike in sun or shade, possibly flowering best where some sun is available.

AZALEA arborescens — Sweet Azalea

5 ft. Broad round habit. Flowers white inside, rich pink outside, red stamens, fragrant, late June.

	Plant 1	Prices 10	Per 100
15 to 18 in. B&B	\$1.90	\$17.00	\$150.00
18 to 24 in. B&B	2.40	22.00	190.00
2 to 2½ ft. B&B	3.30	30.00	270.00
2½ to 3 ft. B&B	4.50		
3 to 3½ ft. B&B	6.00		

A. calendulacea — Flame Azalea

8 ft. Tall, bushy. Flowers range through reds, oranges, toward yellow, early to late June. Very showy.

15 to 18 in. B&B	2.25	20.00	180.00
18 to 24 in. B&B	2.70	25.00	220.00
2 to 2½ ft. B&B	3.30	30.00	270.00
2½ to 3 ft. B&B	4.40	40.00	360.00
3 to 4 ft. B&B	6.00	55.00	

DECIDUOUS SHRUBS

AZALEA — Continued

A. canescens — Southpink Azalea

4 ft. Leaves grayish. Flowers soft medium pink, late May. Somewhat tender.

	Plant Prices Per		
	1	10	100
15 to 18 in. B&B	\$1.60	\$14.00	
18 to 24 in. B&B	1.90	17.00	150.00
2 to 3 ft. B&B	2.50	22.50	200.00
3 to 4 ft. B&B	3.50	30.00	

A. dahurica — Dahurian Azalea

6 ft. Earliest to flower, about April 12; purplish rosy pink. Withstands severe drouth.

15 to 18 in. B&B	1.60	14.00	120.00
18 to 24 in. B&B	2.20	19.00	160.00
2 to 2½ ft. B&B	2.90	25.00	

A. gandavensis — Ghent Azalea

8 ft. Similar to Flame Azalea, but wider range of color including coppery reds, creamy pinks, occasional whites — late May to mid June. Very fine.

15 to 18 in. B&B	2.40	21.00	
18 to 24 in. B&B	3.00	27.00	
2 to 2½ ft. B&B	4.00	36.00	
2½ to 3 ft. B&B	5.00	45.00	
3 to 4 ft. B&B	6.50	60.00	
4 to 5 ft. B&B	8.50	80.00	

A. kaempferi — Torch Azalea

8 ft. From middle to late May a mass of flaming indescribable color, neither red, pink or salmon, but compounded of all three. Very showy. **LIKES LIME.**

12 to 15 in. B&B	1.60	14.00	120.00
15 to 18 in. B&B	2.00	18.00	160.00
18 to 24 in. B&B	2.50	22.50	200.00
2 to 2½ ft. B&B	3.30	30.00	
2½ to 3 ft. B&B	4.40	40.00	

A. mollis — Chinese Azalea

6 ft. Large clusters, showy salmon-orange, occasionally reddish and yellow, late May, early June.

12 to 15 in. B&B	1.75	16.00	140.00
15 to 18 in. B&B	2.25	20.00	180.00
18 to 24 in. B&B	2.75	25.00	225.00
2 to 2½ ft. B&B	3.75	35.00	320.00
2½ to 3 ft. B&B	5.00	45.00	400.00
3 to 4 ft. B&B	6.50	60.00	

A. mucronulata — Mongolian A.

6 ft. One of the best drought resistant shrubs; leaves remain dark in very dry soil. Very early, about April 20; purplish rosy pink. Likes some lime. A "Grade A" plant.

15 to 18 in. B&B	1.60	14.00	120.00
18 to 24 in. B&B	1.90	16.00	140.00

4 to 5 ft. B&B	4.00	36.00	

BENZOIN aestivale — Spicebush

15 ft. Coarse branches. Small bright yellow flowers late April, early May. Wet soils.

18 to 24 in.60	5.00	40.00
2 to 3 ft.75	6.50	
3 to 4 ft.90	8.00	

BERBERIS

Barberry

A well known family of beautiful and useful shrubs. Mostly compact, some are gracefully arching. Some have colored leaves; nearly all have brilliant fall foliage. Some have conspicuous yellow blossoms; all have scarlet fruit which remains until late winter at least. Their thorny branches make the Barberries excellent plants for protective hedges.

DECIDUOUS SHRUBS

BERBERIS amurensis — Amur Barberry

8 ft. Leaves 1 to 3 inches. Scarlet fruit.

3 to 4 ft.	1.20	10.00	

TRUEHEDGE COLUMNBERRY

Berberis Thun. Pluriflora Erecta

(Plant Patent No. 110)

A wonderful recent improvement of the old dependable Japanese Barberry, developed by five generations of breeding and selection. It has every good point of its parent type — its hardiness, tenacity of life under trying conditions, and adaptability to wide variations of soils and exposures.

Besides this it has other advantages of its own. TRUEHEDGE COLUMNBERRY has darker foliage than the Japanese Barberry, remaining dark in spite of severe drought; its fall color is even richer and deeper; and its scarlet berries are borne with still greater profusion.

But most important of all of the advantages of TRUEHEDGE COLUMNBERRY is its perfect habit of growth; its dense, erect, bushy, columnar shape, which makes a perfect hedge the instant it is planted, and needs little pruning to keep it perfect. While more expensive to purchase, it is actually cheaper in the end, by virtue of the saving in pruning labor, and you don't have to wait years for the hedge to develop its form.

B. thun. pluriflora erecta —

BUDDLEIA

Butterflybush

A beautiful group of flowering shrubs. Leaves are generally grayish due to a fine hairiness. Flowers are large spikes or panicles, usually in some shade of purple or lavender, from July to September. Buddleias are partially tender, most varieties winter-killing to the ground; mostly the roots survive and send up new tops each year. Buddleias decidedly prefer the sun.

BUDDLEIA alternifolia —

Chinese Butterflybush

8 ft. Narrow spikes, lilac-purple, July. The hardiest.

Plant	Prices	Per
1	10	100
2 to 2½ ft.	\$.60	\$5.00

12 ft. Nuts larger than preceding.

5 to 6 ft.	1.00	9.00	
6 to 8 ft.	1.50	12.50	

COTONEASTER

One of the more valuable Asiatic plant families. Its members fall into two general classes — (1) medium to large sorts of conventional shrub habit, (2) low prostrate or irregularly spreading form. This latter class is particularly fitting for rockeries or against stone walls or boulders. The prostrate class nearly all have leaves $\frac{1}{2}$ inch diameter, round in shape, waxy of texture and semi-evergreen. The flowers are tiny but showy in mass, in May and June. Showy fruits in Autumn.

COTONEASTER acutifolia villosula

10 ft. Leaves $2\frac{1}{2}$ inches. Flowers white.
Fruit black. Good hedge shrub.

	Plant	Prices	Per
	1	10	100
4 to 5 ft. B&B	\$1.25	\$11.00	\$90.00

C. apiculata — Pointleaf C.

Prostrate. Arching branches. Flowers pink. Fruit scarlet.

4 in. pots, 8 to 12 in.	1.35	11.00	
------------------------------	------	-------	--

C. dielsiana — Diels Cotoneaster

6 ft. Graceful branches. Leaves 1 inch, red in fall. Flowers and fruits red.

2 to 3 ft. B&B	1.00	9.00	85.00
3 to 4 ft. B&B	1.25	11.00	100.00
4 to 5 ft. B&B	1.50	12.50	110.00

C. divaricata — Spreading C.

6 ft. Intermediate between the two classes. Spreads as wide as height. Branches arching. Leaves $\frac{3}{4}$ inch, round, glossy, red in fall; pink flowers, fruit red.

18 to 24 in. B&B90	8.00	75.00
2 to 3 ft. B&B	1.10	10.00	90.00
3 to 4 ft. B&B	1.35	12.00	100.00

2½ to 3 ft. B&B	2.50	20.00	

EUONYMUS

The Shrubby Euonymus give us several of our most spectacular autumn hues. (Evergreen varieties are listed under Evergreen Shrubs.) Medium to tall shrubs, they provide the shrub border with bold accent of fall foliage and fruit. Flowers are very small, yellow, May and June. Leaves mostly about 2½ inches; most varieties very dark green.

EUONYMUS alatus — Winged Euonymous

10 ft. Bushy habit. Twigs have four corky wings. Fall foliage blazing scarlet hues. Fruit small, red.

	Plant 1	Prices 10	Per 100
2 to 3 ft.	\$.70	\$6.00	\$50.00
3 to 4 ft.80	7.00	60.00

HIBISCUS

Beautiful shrubs of narrow habit attaining a height of 12 feet, flowering in late July, August and early September. The flowers are large, 3 to 4 inches broad, in several colors. The plants are inclined to be a little tender in middle and northern New England, but this can probably be somewhat overcome by using lime. Prefer spring planting.

HIBISCUS syriacus — Rose of Sharon — Althea

LIGUSTRUM *Privet*

The premier family of hedge shrubs, some varieties handsome for specimen or border use. Flowers are not usually conspicuous, being very small Lilac-clusters in type, white with slight lavender markings, seldom over 1½ inches long. Privet also bear blackish berries. Particularly beautiful for their multitude of small branchlets heavily covered with dark leaves, 1 to 2 inches long.

DECIDUOUS SHRUBS

LIGUSTRUM amurense — Amur Privet

12 ft. Narrow habit. Hardest tall sort.

	Plant 1	Prices 10	Per 100
2 to 3 ft.	\$.30	\$2.25	\$15.00
3 to 4 ft.40	3.00	22.50
4 to 5 ft.60	5.00	40.00
5 to 6 ft.80	7.00	
6 to 7 ft.	1.25	11.00	
8 to 10 ft.	2.50	22.00	

L. ibolium — Ibolium Privet

10 ft. Medium narrow habit. A hybrid of the California Privet, hardier than its parent.

18 to 24 in.25	1.50	10.00
2 to 3 ft.30	2.00	12.00
3 to 4 ft.35	2.50	18.00

L. ibota — Iбота Privet

8 ft. Bushy; graceful arching form. Very hardy. Excellent for specimen use.

2 to 3 ft.35	2.80	22.50
3 to 4 ft.45	3.50	27.00
3 to 4 ft., heavy specimens	1.50		
4 to 5 ft., heavy specimens	2.50		
5 to 6 ft., heavy specimens	3.50	30.00	

L. ibota regelianum — Regal Privet

5 ft. Wide spreading, rounding, graceful. Excellent low specimen. Very hardy.

18 to 24 in.60	5.00	42.00
2 to 2½ ft.70	6.00	50.00
2½ to 3 ft.85	7.00	60.00
3 to 4 ft.	1.20	11.00	90.00

L. ovalifolium — California Privet

10 ft. Narrow habit. Glossy oval leaves. A bit tender here.

18 to 24 in.25	1.20	7.50
2 to 3 ft.25	1.50	10.00
3 to 4 ft.25	1.80	12.00

L. vulgare pyramidalis — Pyramid Privet

8 ft. Conical to columnar habit. Dense, dark.

2 to 3 ft.50	4.00	
3 to 4 ft.65	5.50	
4 to 5 ft.80	7.00	

LONICERA

Honeysuckle

Handsome foliage shrubs usually bushy and well formed. Leaves only 1½ to 2 inches, but plentiful; usually dark. Flowers are small, 1 inch, but profuse. Small colorful berries also add to their beauty. Honeysuckles leaf out among the earliest of shrubs.

Plant	Prices	Per
1	10	100

LONICERA bella albida — White Bell Honeysuckle

10 ft. White flowers May, June. Red fruit July, August.

4 to 5 ft.	\$.65	\$5.50	
5 to 6 ft.75	6.50	\$50.00
6 to 7 ft.	1.00	8.50	70.00

PHILADELPHUS

Mockorange

Known also as Sweet Syringa, the Philadelphus family contains several of the more popular shrubs. All have white flowers, some large, some small, some fragrant, borne in early summer. Some particularly resemble Orange Blossoms — hence the name Mockorange.

PHILADELPHUS coronarius — Sweet Mockorange

10 ft. Narrow to medium habit. Pure white large fragrant flowers, late June. The best of the larger types.

	Plant 1	Prices 10	Per 100
3 to 4 ft.	\$.50	\$4.00	\$30.00
4 to 5 ft.60	5.00	36.00
6 to 7 ft.90	8.00	70.00

P. falconeri — Star Mockorange

8 ft. Dense shrub. Small white star flowers, late June.

SPACE-GROWN HEAVY SPECIMENS

5 to 6 ft.	6.00	55.00
6 to 7 ft.	9.00	80.00

P. inodorus — Scentless M.

8 ft. Bushy form. Small flowers, late June.

SPACE-GROWN HEAVY SPECIMENS

4 to 5 ft.	4.00	36.00
5 to 6 ft.	6.00	55.00

HYBRID MOCKORANGES

P. Avalanche

6 ft. Dense habit, slender twigs, small flowers.

18 to 24 in.50	4.00	28.00
2 to 3 ft.60	5.00	36.00
3 to 4 ft.70	6.00	45.00

P. Bouquet Blanc

5 ft. Large flowers, very sweet.

3 to 4 ft.70	6.00	45.00
-----------------	-----	------	-------

P. lemoinei

6 ft. The original hybrid. Very small flowers.

2 to 3 ft.60	5.00	40.00
-----------------	-----	------	-------

P. Mont Blanc

4 ft. Dwarf compact habit. Large fragrant flowers.

2 to 3 ft.60	5.00	36.00
3 to 4 ft.70	6.00	45.00

DECIDUOUS SHRUBS

PHILADELPHUS — Continued

P. Virginal

8 ft. Loose habit. Flowers large, semi-double, June and continuous more or less until mid-fall. Spring flowers fragrant.

	Plant 1	Prices 10	Per 100
2 to 3 ft.	\$.60	\$5.00	\$42.00
3 to 4 ft.75	6.50	55.00
4 to 5 ft.	1.00	9.00	

PHYSOCARPUS intermedius Parvifolius — Dwarf Ninebark

7 ft. Dense bushy habit. Small leaves. Small white flowers, June.

4 to 5 ft., bushy75	6.50	55.00
5 to 6 ft., bushy	1.00	9.00	

POTENTILLA fruticosa — Shrubby Cinquefoil

3 ft. Small bright yellow flowers all summer.

18 to 24 in.60	5.00	40.00
2 to 3 ft.75	6.50	

P. frut. veitchi — Veitch Cinquefoil

White flowered variety of preceding.

2 to 3 ft.75	6.50	
-----------------	-----	------	--

PRUNUS

Cherry

Almond

Plum

A variable family — some with beautiful flowers, some with interesting foliage, others with showy as well as edible fruits.

PRUNUS besseyi — Bessey Cherry

5 ft. Very spreading. Foliage narrow, gray. Edible purple fruits, August.

	Plant 1	Prices 10	Per 100
2 to 3 ft.	\$.60	\$5.00	\$40.00
3 to 4 ft.75	6.50	50.00

P. glandulosa alba —

Double White Almond

8 ft. Small very double white rosettes. Late April, early May.

3 to 4 ft.	1.20	10.00	90.00
-----------------	------	-------	-------

P. gland. rosea — Double Pink A.

8 ft. Beautiful pink variety of preceding.

18 to 24 in.75	7.00	60.00
-------------------	-----	------	-------

P. maritima — Beach Plum

8 ft. Irregular habit. White or pale pink flowers late May. Purple fruit in September makes a fine jelly of unique flavor. Excellent dry soil plant; also at seashore.

18 to 24 in.60	5.00	40.00
2 to 3 ft.70	6.00	50.00
3 to 4 ft.85	7.50	
4 to 5 ft.	1.00	9.00	

DECIDUOUS SHRUBS

PRUNUS — Continued

P. tomentosa — Nanking Cherry

8 ft. Small white flowers, May. Small sweet scarlet fruits.

P. virginiana — Chokecherry

20 ft. Fragrant white flowers in 5 inch clusters, May. Red-black puckery berries.

2 to 3 ft.50	4.00	30.00
3 to 4 ft.60	5.00	
4 to 5 ft.70	6.00	

RHAMNUS cathartica — Common Buckthorn

15 ft. Spiny branches. White flowers, black berries. Sun or shade.

2 to 3 ft.50	4.00	30.00
3 to 4 ft.60	5.00	40.00

R. dahurica — Dahurian B.

6 ft. Spreading, rounding. Excellent for low hedge or specimen use in sun or shade. White flowers, black berries.

18 to 24 in.60	5.00	40.00
2 to 3 ft.75	6.50	

R. frangula — Glossy Buckthorn

15 ft. Glossy leaves. Red fruit, later black.

5 to 6 ft.60	5.00	
6 to 8 ft.70	6.00	
8 to 10 ft.	1.25	10.00	

RHODOTYPOS kerrioides — Jetbead

5 ft. Light green foliage. White star flowers, May, June. Jet black berries.

18 to 24 in.40	3.00	25.00
2 to 3 ft.50	4.00	32.00
3 to 4 ft.60	5.00	40.00
4 to 5 ft.70	6.00	

RHUS canadensis — Fragrant Sumac

6 ft. Semi-viny. Leaves aromatic.

18 to 24 in.70	6.00	50.00
2 to 3 ft.80	7.00	60.00
3 to 4 ft.90	8.00	
4 to 5 ft.	1.20	11.00	
5 to 6 ft.	1.50	13.00	

R. copallina — Shining Sumac

8 ft. Leaves glossy; brilliant red in fall. Seeds red-brown cones. Naturalistic use.

2 to 3 ft.60	5.00	
3 to 4 ft.70	6.00	

RHUS — Continued

R. cotinus — Smoketree

12 ft. Fall foliage red, yellow, brown. Huge misty purple clusters of minute flowers, June.

Plant	Prices	Per
1	10	100
2 to 3 ft.	\$.75	\$6.50
3 to 4 ft.	1.00	9.00

R. glabra — Smooth Sumac

10 ft. Gawky habit. Excellent for naturalistic effect. Red seed cones.

4 to 5 ft.50	4.00
5 to 6 ft.70	6.00

R. typhina — Staghorn Sumac

20 ft. Similar to preceding. Young branches hairy.

2 to 3 ft.40	3.00	\$25.00
3 to 4 ft.50	4.00	30.00
5 to 6 ft.75	6.50	
6 to 8 ft.	1.00	9.00	

ROBINIA hispida — Rose-Acacia

6 ft. Irregular habit. Twigs fuzzy. Large rose pink pea-flowers, May, June. Best use in mass plantings.

18 to 24 in.50	4.00	30.00
2 to 3 ft.65	5.50	45.00
3 to 4 ft.85	7.50	
4 to 5 ft.	1.00	9.00	

ROSA

Wild Roses or Rose Species

Not so spectacular in bloom as the Hybrid Roses (listed elsewhere) the Wild Roses merit use in every landscape, as they fit into mass plantings. The flowers are single, beautiful in form, color and fragrance. The fruits are bright red. The plants are hardy and easy to grow.

ROSA blanda — Meadow Rose

5 ft. Twigs red. Flowers pink, in clusters, May. Prefers damp soil.

Plant	Prices	Per
1	10	100
\$\$.70	\$6.00	\$50.00

R. hugonis — Father Hugo Rose

8 ft. Graceful arching branches covered with bright yellow, 2 inch flowers, late May, June.

2 to 3 ft.80	7.00	60.00
-----------------	-----	------	-------

R. lucida — Virginia Rose

4 ft. Single strong pink 2 inch flowers, June. Withstands dry soil.

18 to 24 in.70	6.00	50.00
-------------------	-----	------	-------

DECIDUOUS SHRUBS

R. spin. altaica — Altai Rose

3 ft. Flowers large white, May, June.

2 to 4 ft.90	8.00	
-----------------	-----	------	--

R. wichuraiana — Memorial Rose

Wide creeping. Fine for covering banks. Flowers pure white, July to September.

2 yrs.70	6.00	50.00
-------------	-----	------	-------

SAMBUCUS canadensis — American Elder

10 ft. Loose habit. Large flat heads of white flowers, June, July. Purple berries, September, used for pies and wine.

3 to 4 ft.60	5.00	
4 to 5 ft.70	6.00	

SORBARIA sorbifolia — Ural False-Spirea

6 ft. Bushy. Arching branches. Huge white flower cones, July, August.

3 to 4 ft.60	5.00	
4 to 5 ft.80	7.00	

SPIRAEA

A well known, much planted family — nevertheless deserving of continued planting, having many members of great beauty. The Spireas fall into two main groups — (1) medium and large sorts with white flowers, ranging from April to July — (2) dwarf sorts with red, pink or white flowers in July and August. The spring flowers are borne all along the branches; the summer flowers in small heads at the ends of the branches. The spring flowering sorts thrive in all soils; the summer-bloomers like lime.

DECIDUOUS SHRUBS

SPIRAEA *arguta* — Garland Spirea

8 ft. Leaves narrow, 1 inch. Minute flowers, late April, early May.

	Plant Prices Per		
	1	10	100
3 to 4 ft.	\$.50	\$4.00	\$30.00
4 to 5 ft.65	5.50	
5 to 6 ft.80	7.00	
6 to 8 ft., extra heavy	2.00	18.00	

S. *bumalda* — Bumalda Spirea

3 ft. Pink, July, August.

18 to 24 in.50	4.00	
2 to 2½ ft.60	5.00	

S. *bum. anthony waterer* —

Anthony Waterer Spirea

3 ft. Profusion crimson flowers, July, August.

12 to 15 in.40	3.00	22.00
18 to 24 in.50	4.00	30.00
2 to 2½ ft.60	5.00	

S. *froebeli* — Froebel Spirea

4 ft. Bright red flowers, July, August.

18 to 24 in.50	4.00	27.00
2 to 3 ft.60	5.00	33.00

S. *fortunei* — Fortune Spirea

4 ft. Pale pink, June, July.

2 to 3 ft.50	4.00	
3 to 4 ft.60	5.00	40.00

S. *japonica ovalifolia* — White Japanese S.

3 ft. White, June, July.

12 to 18 in.40	3.00	22.00
18 to 24 in.50	4.00	30.00

S. *prunifolia plena* — Bridalwreath

8 ft. Small white rosettes, mid-May. Somewhat tender. NOTE the plant more commonly referred to as "Bridalwreath" is *Spiraea vanhouttei*. This latter variety we always furnish unless the botanical name "*Spiraea prunifolia plena*" is specifically given in the order.

3 to 4 ft.70	6.00	
4 to 5 ft.85	7.50	
5 to 6 ft.	1.00	9.00	

S. *reevesiana* — Reeves Spirea

6 ft. One of the parents of *Spiraea vanhouttei*, but greatly inferior to the offspring. White, May, June.

3 to 4 ft.60	5.00	
4 to 5 ft.70	6.00	

S. *superba* — Striped Spirea

4 ft. Striped stems. Pale pink, June, July.

18 to 24 in.50	4.00	30.00
2 to 3 ft.60	5.00	39.00

DECIDUOUS SHRUBS

SPIRAEA — Continued

S. thunbergi — Thunberg Spirea

6 ft. Similar to *S. arguta* but better. Leaves smaller. Multitudes of tiny white flowers cover the bush in late April, early May—at Forsythia time.

	Plant Prices Per		
	1	10	100
2 to 3 ft.	\$.50	\$4.00	\$30.00
3 to 4 ft.60	5.00	40.00
4 to 5 ft.70	6.00	50.00
5 to 6 ft.80	7.00	60.00

S. trichocarpa — Korean Spirea

8 ft. Arching branches loaded with 2 inch white clusters, mid-June. Very good.

2 to 3 ft.50	4.00	30.00
3 to 4 ft.60	5.00	36.00
4 to 5 ft.70	6.00	45.00
5 to 6 ft.80	7.00	55.00

S. vanhouttei — Vanhouette Spirea

8 ft. The best of all Spireas, often, but incorrectly, called "Bridalwreath." Graceful arching branches. Foliage smooth, clean, blue-green, free from pests. A mass of white 1½ inch clusters at Memorial Day.

2 to 3 ft.35	2.70	20.00
3 to 4 ft.40	3.00	24.00
4 to 5 ft.50	4.00	30.00
5 to 6 ft.60	5.00	40.00
6 to 8 ft.70	6.00	50.00

SYMPHORICARPOS chenaulti — Pink Snowberry

4 ft. Fine arching branches. Small pink berries, August, September.

2 to 3 ft.50	4.20	36.00
3 to 4 ft.60	5.00	

S. racemosus — Snowberry

6 ft. Arching branches. Flowers small pink, June to August. Waxy white berries, ½ inch. Sun or shade.

2 to 3 ft.50	4.00	30.00
3 to 4 ft.60	5.00	39.00

S. vulgaris — Coralberry

5 ft. Very arching drooping branches. Small dark red berries. Sun or shade. A secondary set of viny branches, trailing and matting on surface of ground makes this the best shrub to keep banks from eroding.

18 to 24 in.40	3.00	24.00
2 to 3 ft.50	4.00	30.00

SYRINGA

Lilac

Large fragrant panicles of colorful flowers in late May and early June make the Lilacs one of the most popular shrubs. Leaves are heart shaped. Lilacs grow in any soil, but are benefited in New England by a little lime.

DECIDUOUS SHRUBS

SYRINGA chinensis — Chinese Lilac

10 ft. Branches slender, arching. Leaves 2 inches. Panicles loose, rosy purple.

	Plant Prices Per		
	1	10	100
2 to 3 ft.	\$.75	\$6.50	
3 to 4 ft.85	7.50

6 to 7 ft. B&B	3.50	33.00	300.00

For collected plants write for special quotation.

VIBURNUM

Particularly important as foliage shrubs in large shrub borders, several varieties also have exquisite flower and fruit effect. Rugged shrubs suited to all except very dry soils. Many of them withstand considerable shade.

VIBURNUM acerifolium — Mapleleaf V.

	Plant Prices Per		
	1	10	100
5 ft. A sprawling shade plant for natural- istic effect. Black fruit.			
2 to 3 ft.	\$.80	\$7.00	\$60.00
3 to 4 ft.	1.00	9.00	80.00

V. bitchuiense — Fragrant V.

6 ft. Leaves 2 inches. Small pink-white
clusters sweet scented flowers, May.

15 to 18 in. B&B	1.00	9.00	80.00
18 to 24 in. B&B	1.20	11.00	

V. carlesi — Mayflower Viburnum

6 ft. Leaves 3 inches. Pink-white flow-
ers, May, look and smell like Mayflower.

2 to 2½ ft. B&B	1.50	14.00	
2½ to 3 ft. B&B	1.80	17.00	
3 to 4 ft. B&B	2.50	23.00	

V. cassinoides — Withe-Rod

12 ft. Leaves smooth, 3 inches. Flowers
white, June. Showy fruits, white then
red, purple, black.

2 to 3 ft.65	5.50	45.00
3 to 4 ft.80	7.00	60.00
4 to 5 ft.	1.00	9.00	80.00
5 to 6 ft.	1.50	12.50	100.00
5 to 6 ft. extra heavy	2.50	22.50	200.00
6 to 7 ft.	2.00	18.00	160.00
6 to 8 ft. extra heavy	3.50	33.00	300.00

DECIDUOUS SHRUBS

VIBURNUM — Continued

V. dentatum — Arrowwood

12 ft. Many stems. Leaves 2 inches. Small white clusters, June. Small blue-black fruit.

Plant Prices Per
1 10 100

3 to 4 ft.	\$.75	\$6.50	
4 to 5 ft.90	8.00	\$70.00

6 to 7 ft.	1.60	14.00	120.00
6 to 7 ft., extra heavy	3.00	27.00	
8 to 10 ft., extra heavy	4.50	42.00	

V. lantana — Wayfaring-Tree

15 ft. Loose habit. Leaves leathery, 3 inches. Flowers white, June. Fruit showy red, turning blue, purple, black.

2 to 3 ft.65	5.50	45.00
3 to 4 ft.75	6.50	
4 to 5 ft.	1.00	9.00	
5 to 6 ft.	1.50	13.00	

V. lentago — Nannyberry

20 ft. Narrow form. Leaves 4 inches, brilliant scarlet-crimson in fall. White flowers, June. Blue-black fruit holds late.

3 to 4 ft.80	7.00	60.00
4 to 5 ft.	1.00	9.00	75.00
5 to 6 ft.	1.25	11.00	90.00
6 to 8 ft.	1.65	14.00	110.00
8 to 10 ft.	2.50	22.50	

V. molle — Kentucky Viburnum

12 ft. Similar to Vib. dentatum; leaves broader, fruit larger.

4 to 5 ft.90	8.00	
5 to 6 ft.	1.20	10.00	80.00
6 to 8 ft.	1.75	16.00	
6 to 8 ft., extra heavy	3.00	27.00	
8 to 10 ft., extra heavy	5.00	45.00	

V. opulus — European Cranberrybush

12 ft. Leaves maple-like, 5 inches. Large heads white flowers early June. Fruit scarlet to crimson.

2 to 3 ft.65	5.50	
3 to 4 ft.80	7.00	60.00
4 to 5 ft.90	8.00	65.00
5 to 6 ft.	1.00	9.00	80.00
6 to 7 ft.	1.50	12.50	
8 to 10 ft.	2.00	18.00	

V. op. sterile — Common Snowball

10 ft. Large snowball-like flowers late May, early June. No berries.

2 to 3 ft.60	5.00	
3 to 4 ft.75	6.00	

V. sieboldi — Siebold Viburnum

12 ft. Leaves 5 to 6 inches, narrow, rough, thick. White flowers May, June. Scarlet pink berries turn blue-black.

3 to 4 ft.80	7.00	
4 to 5 ft.	1.00	9.00	
5 to 6 ft.	1.65	15.00	
6 to 8 ft.	2.25	20.00	
8 to 10 ft., extra heavy	5.00		

DECIDUOUS SHRUBS

W. floribunda — Crimson Weigela 7 ft. Red flowers, June.			
3 to 4 ft.70	6.00	
W. rosea — Pink Weigela 6 ft. Pink flowers, June.			
3 to 4 ft.60	5.00	
W. ros. variegata — Variegated W. 4 ft. Pale pink flowers, June. Leaves dark green, white margins.			
3 to 4 ft.60	5.00	

ZANTHORHIZA apiifolia — Yellowroot 2 ft. Deciduous ground cover for natural- istic effect.			
12 to 15 in.40	3.00	24.00
15 to 18 in.50	4.00	30.00

Vines

No rules can govern the use of Vines in the landscape, yet no other class of plants can give any landscape the finishing touch so well as Vines. The versatility of their habit enables them to climb here and there, fill in awkward blank wall spaces, hide undesirable architectural features or accentuate good ones. Vines growing over trellises, arches, pergolas, provide shady romantic pathways. Vines sprawling over rocks and ledges add a naturalistic note.

Some Vines have small suckers along their stems which enable them to cling to any walls they are planted against — those types are marked with the letter (C). Others will climb if given something to twine about or mesh into — these are denoted by (T). All Vines look well trailing over rocks, but some varieties have this as their chief purpose, and are marked (R).

AKEBIA quinata — Fiveleaf Akebia

12 ft. (T) Leaves 1 to 1½ inches, five-lobed. Flowers small rosy-purple, May.

3 yrs.

Plant Prices Per

1 10 100

\$.60 \$5.00 \$40.00

AMPELOPSIS aconitifolia — Monkshood Vine

20 ft. (T) Leaves 2½ inches, deeply cut like Monkshood. Small blue berries.

4 yrs.

.70 6.00 50.00

A. heterophylla — Porcelain Ampelopsis

30 ft. (T) Leaves 3 inches, sometimes cut, sometimes not.

4 yrs.

.70 6.00 50.00

A. quinquefolia — Virginia Creeper

50 ft. (T.R.) Leaves in fives, 4 to 6 inches, rich crimson in fall. Blue berries.

HEDERA helix — English Ivy — See page 28

LONICERA japonica halliana —

Hall Japanese Honeysuckle

25 ft. (T.R.) Slender branches. Leaves dark, oval, 1½ inches. Fragrant yellow and white flowers July to September. Glossy black berries. An excellent mass plant to prevent erosion of slopes. Equally good in sun or shade.

2 yrs.40	3.00	22.50
3 yrs.50	4.00	30.00

VINES

LONICERA — Continued

L. sempervirens — Trumpet H.

10 ft. (R) Small slender trumpets, deep crimson, June to September. Scarlet berries.

	Plant	Prices	Per
	1	10	100
3 yrs.	\$.60	\$5.00	\$40.00

LYCIUM chinense — Chinese Matrimony Vine

10 ft. (R) Shrubby vine. Purple star-flowers June to September. Long scarlet fruits.

3 yrs.50	4.00	30.00
-------------	-----	------	-------

POLYGONUM auberti — Chinese Fleecevine

50 ft. (T) Very rapid grower. Leaves small. Covered with large white feathery sprays, August to October.

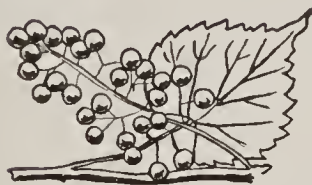

2 yrs.90	8.00	70.00
-------------	-----	------	-------

VITIS aestivalis — Summer Grape

30 ft. (T.R.) Leaves 6 inches. Berries small black.

3 yrs.60	5.00
4 yrs.70	6.00
5 yrs.80	7.00

V. berlandieri — Winter Grape

30 ft. (T.R.) Leaves 7 inches. Large clusters small purple fruits in late fall.

3 yrs.60	5.00
-------------	-----	------

V. cordifolia — Frost Grape

50 ft. (T.R.) Leaves 6 inches, narrow heart-shape. Large fruits edible after being frosted.

3 yrs.60	5.00
-------------	-----	------

WISTERIA

Much loved for its long hanging clusters of large pea-flowers in May, just before the leaves open. For best effect Wisterias should be trailed over a pergola or other support, so that the flowers hang down in full view.

Wisterias are legumes and are able to extract large supplies of atmospheric nitrogen and maintain strong growth without the aid of nitrogenous fertilizers. The use of such fertilizers (except in the poorest soils) induces tremendous stem growth but inhibits the setting of flowers. Best fertilizer in average soils is equal parts of wood ashes and super-phosphate.

WISTERIA multijuga — Longcluster Wisteria

20 ft. (T) Blue flowers. In very moist soils, clusters have been known to grow 3 feet long.

	Plant	Prices	Per
	1	10	100
4 yrs.	\$1.00	\$9.00	

WISTERIA — Continued

W. sinensis — Purple Chinese W.

30 ft. (T) Flowers white.

Grafted Vines — From Flowering Plants:

4 yrs.	1.50	13.00
5 yrs.	2.25	20.00

Tree-Form Wisterias

Instead of natural growth, these plants have been trained into heavy straight stemmed trees with spreading or somewhat rounding heads. For best effect they should be pruned in a round shape every year in early to middle July.

W. sinensis tree-form

4 yr. heads, trunks 3 ft. B&B 7.50

W. sin. alba tree-form

4 yr. heads, trunks 3 ft. B&B 7.50

Perennial Department

HARDY PERENNIALS, FERNS, GRASSES AND HERBS

Perennials afford a huge assortment of plants useful in the development of every garden. This list of ours — one of the larger stocks grown in America — contains many sorts for many purposes. The largest single class is rightly that of the Bed or Border Perennials. Other classes are plants for Cut-Flowers, Edging Plants, Ground Cover Plants, Herbs, Rock Garden Plants, Wild Garden Plants. There is a certain amount of overlapping of those classes — certain varieties being in two or more classifications. Such plants are doubly useful — particularly in the small garden where each plant must contribute the utmost of beauty and utility.

In the descriptions of each variety, a Key letter is given denoting the classification or classifications in which that variety falls.

Key to Classification of Perennials

- | | |
|------------------------------|--------------------------|
| (B) — Bed or Border Plants | (H) — Herbs |
| (C) — Plants for Cut-Flowers | (R) — Rock Garden Plants |
| (E) — Edging Plants | (W) — Wild Garden Plants |
| (G) — Ground Covers | |

The plants we offer in this list of Perennials are usually two-year field-grown plants or equivalent divisions. Certain sorts, which transplant better from pots, are pot-grown and are necessarily somewhat lighter in grade than the field-grown. Those varieties do, however, give definitely superior results when started in pots.

ACANTHUS

COLOR: White to rose. HEIGHT: 4 ft. HABIT: Rich, well-drained soil; full sun. Requires winter protection. FLOWERING: Summer. WHEN TO PLANT: Spring.

	Each	10	100
mollis — Softleaf Acanthus	\$.25	\$2.00	\$15.00
(B) 4 ft. Purple rose, July.			
mol. latifolius — Broadleaf A.25	2.00	15.00
(B) 2½ ft. Rose, July.			

ACHILLEA

Yarrow

COLOR: White, yellow, pink, red, depending on species. HEIGHT: 6 in. — 4 ft. HABIT: Rank growers, prefer sun, ordinary garden soil. FLOWERING: Summer and fall. WHEN TO PLANT: Spring or fall.

	Each	10	100
ageratum — Sweet Yarrow	\$.25	\$2.00	\$15.00

(BC) 4 ft. White, July, Sept.			

NAMED HARDY CHRYSANTHEMUMS

Those marked (LF) are the large flowering varieties. All are suitable for Border planting, and flowers are valuable for Cutting.

AMELIA (Azaleamum) — Early double pink, dwarf35	3.00	25.00
BOSTON — Golden bronze35	3.00	25.00
BROWN BOY — Bronzy-red25	2.00	15.00
EARLY BRONZE — Bronzy yellow35	3.00	25.00
FIELD OF SNOW — Pure white35	3.00	
GLORY OF SEVEN OAKS — Golden yellow, early (LF)35	3.00	25.00
GOLDEN PHEASANT — Orange-yellow35	3.00	
GRENADIER — Bright crimson-red35	3.00	25.00

PERENNIALS

CHRYSANTHEMUM — Continued

	Each	10	100
GYPSY GIRL — Bright crimson (LF)	\$.35	\$3.00	
INNOCENCE — Dwarf pure white35	3.00	\$25.00
OCTOBER GIRL — Clear rose-pink (LF)35	3.00	25.00
RUTH HATTON — Pompom, clear ivory white	.30	2.50	
SKIBO — Yellow button25	2.00	
TINTS OF GOLD — Golden yellow25	2.00	15.00
VIVID — A very striking variety of rich rosy crimson — early (LF)35	3.00	25.00
WHITE DOTY — Pure white globular flowers	.35	3.00	25.00

CIMICIFUGA

Bugbane

COLOR: White. HEIGHT: 5 ft. HABIT: Rich moist soil; prefers shade. FLOWERING: Summer. WHEN TO PLANT: Spring or fall.

	Each	10	100
racemosa — Cohosh Bugbane	\$.30	\$2.50	\$20.00
(BCW) 5 ft. White, July, Sept.			

CLAYTONIA

COLOR: White, striped with pink. HEIGHT: 4 to 8 in. HABIT: Ordinary garden soil. FLOWERING: Early spring. WHEN TO PLANT: Fall.

	Each	10	100
virginica — Virginia Springbeauty	\$.30	\$2.50	
(RW) 6 in. White, tinged pink, spring.			

CLEMATIS

COLOR: Scarlet, pink, blue, white, lavender. HEIGHT: Up to 20 ft. on climbing varieties. Upright varieties 2 to 4 ft. HABIT: Useful for covering, walls, fences, etc. Rich soil; well drained. FLOWERING: Summer and fall. WHEN TO PLANT: Spring.

	Each	10	100
coccinea (texensis) — Scarlet Clematis	\$.50	\$4.00	
6 ft. Scarlet — summer — climber.			
crispa — Curly C.50	4.00	
3½ ft. Purple, climber.			
heracleaefolia davidiana — Fragrant Tube C.50	4.00	
2½ ft. Deep lavender, Aug., Sept.			
integrifolia50	4.00	
2 ft. Porcelain-blue, June to Aug.			
montana rubra90	8.00	
Flesh pink, May, June. Climber.			

CONVALLARIA

Lily-of-the-Valley

COLOR: White. HEIGHT: 5 to 8 in. HABIT: Partial or deep shade, ordinary garden soil. FLOWERING: Late spring. WHEN TO PLANT: Spring or fall.

	Each	10	100
majalis			
(CGRW) 8 in. White, May, June.			
heavy clumps	\$.40	\$3.50	\$30.00
strong pips20	1.50	10.00

PERENNIALS

COPTIS

Goldthread

COLOR: White. HEIGHT: 4 in. HABIT: Sun or shade; woods soil. FLOWERING: May.
WHEN TO PLANT: Spring or fall.

	Each	10	100
trifolia — Goldthread	\$.30	\$2.50	\$20.00
(GHRW) 4 in. White, May.			

COREOPSIS

COLOR: Yellow, except Rosea which is lovely rose-pink. HEIGHT: 18 in. to 3 ft. HABIT: Sun, ordinary garden soil. FLOWERING: Spring, summer, fall. WHEN TO PLANT: Spring or fall.

	Each	10	100
delphinifolia — Larkspur C.	\$.25	\$2.00	\$15.00
(BC) 2 ft. Yellow, July to Sept.			
grandiflora — Big C.25	2.00	15.00
(BC) 2 ft. Golden yellow, May to Nov.			
grand. Mayfield Giant40	3.50	
(BC) 2½ ft. Yellow, June to Sept.			
grand. Sunburst40	3.50	
(BC) Deep yellow, large, all summer.			
lanceolata — Lance C.25	2.00	15.00
(BC) 2 ft. Yellow, June to Sept.			
rosea — Rose C.30	2.50	20.00
(BCR) 12 in. Rose pink, July, Aug.			
verticillata — Threadleaf C.25	2.00	15.00
(BC) 18 in. Lemon yellow, June to Sept.			

CORONILLA

Crown Vetch

COLOR: Pink. HEIGHT: 18 in. HABIT: Sun, ordinary garden soil. FLOWERING: Summer and fall. WHEN TO PLANT: Spring.

	Each	10	100
varia — Crownvetch	\$.25	\$2.00	\$15.00
(G) 18 in. Pink, June to October.			

CRUCIANELLA

Crosswort

COLOR: Dark pink to rose-red. HEIGHT: 6 to 9 in. HABIT: Mostly confined to shady places, rich earth. FLOWERING: Summer. WHEN TO PLANT: Spring or fall.

	Each	10	100
stylosa — Common Crosswort	\$.25	\$2.00	\$15.00
(R) 6 in. Pink, June to Sept.			

CYNANCHUM

Mosquito-trap

COLOR: White. HEIGHT: 2 ft. HABIT: Sun, ordinary garden soil. FLOWERING: Summer. WHEN TO PLANT: Spring or fall.

	Each	10	100
acuminatifolium — Mosquito-trap	\$.25	\$2.00	\$15.00
(B) 18 in. White, August.			

PERENNIALS

CYPRIPEDIUM

Ladys-Slipper

COLOR: See below. HEIGHT: 8 in. to 3 ft. HABIT: Partial shade, rich woods soil on the acid side. FLOWERING: Spring and summer. WHEN TO PLANT: Preferably in the fall.

	Each	10	100
acaule — Pink Ladyslipper	\$.30	\$2.50	\$20.00
(RW) 10 in. Pink, May.			
pubescens — Yellow L.30	2.50	20.00
(RW) 10 in. Yellow, May.			
spectabile — Showy Ladyslipper30	2.50	20.00
(RW) 2 ft. Pink, May.			

DELPHINIUM

Larkspur

COLOR: Prevailing blue. HEIGHT: 2 to 6 ft. HABIT: Sun, rich soil containing lime. FLOWERING: Late spring to early fall. WHEN TO PLANT: Early spring.

	Each	10	100
BAY STATE HYBRIDS	\$.50	\$4.00	\$35.00
(BC) 5 ft. Heavy long spikes of large florets, in wide range of exquisite colors.			
belladonna30	2.50	20.00
(BC) 2 ft. Light blue, June to Sept.			
bel. Cliveden Beauty30	2.50	20.00

HOLLYHOCK STRAIN50	4.00	35.00
(BC) 4 ft. Mixed colors.			
grandiflorum chinense — Slender L.30	2.50	20.00
(BCR) 2½ ft. Blue, June to August.			
grand. album25	2.00	15.00
(BCR) 2½ ft. White, June to August.			
grand. azureum30	2.50	20.00
(BCR) 2½ ft. Blue, July to Sept.			

NOTE

The best effects with perennials come from using groups of several plants of a kind massed together rather than alternating single plants of different varieties. A bed or border made with one plant each of a great many varieties resembles hash — good enough eating but not much to look at.

Besides you save money when buying several plants of a kind — 5 to 24 plants of the same variety are priced at the 10 rate; 25 to 249 at the 100 rate; 250 or more at the 1000 rate when given.

PERENNIALS

DIANTHUS

Pink

COLOR: White, red, yellow, lilac. HEIGHT: 4 to 18 in. HABIT: Sun, ordinary garden soil.
FLOWERING: Mostly spring blooming. WHEN TO PLANT: Spring.

	Each	10	100

HEMEROCALLIS — Continued

HEMEROCALLIS HYBRIDS

These Hemerocallis are immensely more beautiful than the varieties commonly grown. They are all of great beauty and real value. All are suitable for Border planting and for Cutting. The varieties in this list grow from 2 to 3 feet tall.

	Each	10	100
Bay State	\$.75	\$6.50	\$60.00
Deep yellow, mid-August.			
Cressida50	4.00	35.00
Orange, mid-July.			
D. D. Wyman75	6.50	
Very large, orange center, petals overlaid rich mahogany. Late July.			
Fulva maculata50	4.00	
Bronze-orange, July.			
GOLDENI50	4.00	35.00
Rich orange-yellow, June, July.			
Gold Dust25	2.00	15.00
Golden yellow, June.			
Harvest Moon75	6.50	
Clear orange sherbert, mid-July.			
HYPERION	1.50	13.50	120.00
Free flowering, huge flowers, primrose yellow, July, August.			
J. A. Crawford75	6.50	
Apricot yellow, mid-July.			
Kwanso flore-pleno30	2.50	20.00
Bronze orange, June, July.			
Lemona75	6.50	
Pale lemon yellow.			
May Queen	1.00	9.00	80.00
Orange yellow, May.			
Mrs. A. H. Austin75	6.50	
Large, deep golden yellow, late July.			
MRS. W. H. WYMAN75	6.50	60.00
Shade lighter than Lemona.			
Ochrolueca30	2.50	20.00
Citron yellow, July.			
The Gem75	6.50	
Deep orange, yellow, early July.			

HEPATICA *Liverleaf*

COLOR: White, lavender-blue. HEIGHT: 6 in. HABIT: Partial shade to full shade in not too acid woods soil. FLOWERING: Early spring. WHEN TO PLANT: Fall.

	Each	10	100
triloba — Roundlobe Hepatica	\$.25	\$2.00	\$15.00
(RW) 6 in. Lavender-blue, April, May.			

PERENNIALS

HESPERIS

Rocket

COLOR: White, purple. HEIGHT: 2 to 3 ft. HABIT: Sun, ordinary garden soil. Very fragrant at night. FLOWERING: Summer. WHEN TO PLANT: Spring or fall.

delavayi — Trumpet Flower	\$.30	\$2.50	\$20.00
(B) 18 in. Rose-purple, June, July.			

INULA

COLOR: Yellow. HEIGHT: 6 in. to 2 ft. HABIT: Full sun, ordinary garden soil. FLOWERING: Summer. WHEN TO PLANT: Spring or fall.

	Each	10	100
ENSIFOLIA — Swordleaf Inula	\$.30	\$2.50	\$20.00
(BH) 15 in. Golden yellow, July, August.			
salicina — Willowleaf Inula30	2.50	
(BH) 2 ft. Yellow, July, August.			

IRIS

Pogoniris, the so-called German Iris, is available in a tremendous number of colors. It prefers sun and rich, sandy soil in which some lime is present. On the other hand the Kaempferi or Japanese Iris prefers moist soil totally lacking in lime. This is also true of many of the species Iris such as the Orientalis, Pseudacorus and Siberica. The Blueflag Iris (*I. versicolor*) may be grown actually standing in water.

	Each	10	100
cristata — Crested Iris	\$.25	\$2.00	\$15.00
(R) 6 in. Light blue, May.			
FORRESTI — Yunnan Iris25	2.00	15.00

spicata — Spike G.25	2.00	15.00
(BC) 3 ft. Rose-purple, August to Oct.			

PERENNIALS

LILIUM Lily

These magnificent bulbous plants come in a wide range of colors and while a few prefer sun, most of them prefer partial shade, particularly around the base of the plants. A neutral soil is acceptable to all of them, and no matter what species of lily is planted, thorough drainage is a necessity.

	Each	10	100
auratum platyphyllum — Goldband Lily (BC) 5 ft. White, gold band, June, July.	\$.40	\$3.50	\$30.00

WEBBIANA — Webb S.25	2.00	15.00
(R) 12 in. Purple, June to September.			

PULMONARIA Lungwort

COLOR: White, blue. HEIGHT: 6 to 18 in. HABIT: Sun, ordinary garden soil. FLOWERING: Spring. WHEN TO PLANT: Early spring or fall.

	Each	10	100
angustifolia azurea — Cowslip Lungwort	\$.30	\$2.50	\$20.00
(R) 12 in. Pinkish-blue, May, June.			
SACCHARATA — Bethlehem L.30	2.50	20.00
(R) 15 in. Bright blue, June.			

NOTE

The best effects with perennials come from using groups of several plants of a kind massed together rather than alternating single plants of different varieties. A bed or border made with one plant each of a great many varieties resembles hash — good enough eating but not much to look at.

Besides you save money when buying several plants of a kind — 5 to 24 plants of the same variety are priced at the 10 rate; 25 to 249 at the 100 rate; 250 or more at the 1000 rate when given.

PERENNIALS

PYRETHRUM

Painted Daisy

COLOR: Various colors (see below). HEIGHT: 1 to 2 ft. HABIT: Sun, ordinary garden soil. FLOWERING: Spring. WHEN TO PLANT: Spring or fall.

	Each	10	100
roseum single	\$.30	\$2.50	\$20.00
Varieties: Atrosanguinea (rich fiery red). Coccinea (rich reddish purple). Elsie Gertrude (pale flesh, very large). Hebe (pure white). James Kelway (vivid scarlet, large and free). Nimrod (large and free, silvery rose). Rosy Morn (rose-pink, very pretty).			
roseum single, mixed25	2.00	15.00

RANUNCULUS

Buttercup

COLOR: Yellow. HEIGHT: 8 to 25 in. HABIT: Sun, ordinary garden soil. FLOWERING: Spring and summer. WHEN TO PLANT: Spring or fall.

	Each	10	100
acris fl. pl. — Tall Double B.	\$.30	\$2.50	\$20.00
(BCR) 2 ft. Golden yellow, May to Sept.			
repens — Creeping Buttercup25	2.00	15.00
(BCR) 8 in. Golden yellow, May to July.			

ROSMARINUS

Rosemary

COLOR: Blue. HEIGHT: Grows to 6 ft., but usually from 18 to 24 in. HABIT: Requires sheltered positions. Ordinary garden soil. FLOWERING: Spring. WHEN TO PLANT: Spring.

	Each	10	100
officinalis — Rosemary	\$.25	\$2.00	\$15.00
(BH) 2 ft. Light blue, April, May.			

RUDBECKIA

Coneflower

COLOR: Yellow to orange, dark disks. HEIGHT: 1 to 6 ft. HABIT: Sun, ordinary garden soil. FLOWERING: Summer and fall. WHEN TO PLANT: Spring.

	Each	10	100
FULGIDA — Orange Coneflower	\$.25	\$2.00	\$15.00
(BC) 2 ft. Orange yellow, August, Sept.			
laciniata Golden Glow25	2.00	15.00
(BC) 5 ft. Golden yellow, July to Sept.			
purpurea (see Echinops purpurea)			
SPECIOSA (newmanni) — Showy C.25	2.00	15.00
(BC) 2 ft. Orange yellow, July to October.			

RUMEX

Sorrel

COLOR: Varying, according to species. HEIGHT: 18 in. to 5 ft., according to species. HABIT: Of easy culture. Tart green leaves used in soups and salads. FLOWERING: Summer. WHEN TO PLANT: Spring or fall.

	Each	10	100
scutatus — French Sorrel	\$.25	\$2.00	\$15.00
(H) 3 ft. Gray-white, July, August.			

PERENNIALS

RUTA

Common Rue

COLOR: Yellow. HEIGHT: 12 to 18 in. HABIT: Sun or partial shade, ordinary garden soil. FLOWERING: Summer. WHEN TO PLANT: Spring or fall.

	Each	10	100
graveolens — Common Rue	\$.25	\$2.00	\$15.00
(BH) 15 in. Yellow, July, August.			

SALVIA

Sage

COLOR: White, blue, pink. HEIGHT: 18 in. to 4 ft. HABIT: Sun, ordinary garden soil. Ample water in dry weather. FLOWERING: Summer and fall. WHEN TO PLANT: Spring or fall.

	Each	10	100
argentea — Silver Sage	\$.25	\$2.00	\$15.00
(BR) 2 ft. White, June; white woolly foliage.			
azurea angustifolia30	2.50	20.00
(BC) 3 ft. Dark blue, September, October.			
azur. grandiflora (pitcheri) — Great Azure S.25	2.00	15.00

officinalis — Garden Sage25	2.00	15.00
(BH) 18 in. Blue, June, July. White woolly leaves.			
PRATENSIS — Meadow S.25	2.00	15.00
(B) 2 ft. Violet blue, June to August.			
sclarea — Common Clary25	2.00	15.00
(BH) 2½ ft. Lavender pink, July, Sept.			
scl. turkestanica25	2.00	15.00
(B) 18 in. White, streaked with pink, Aug.			
scl. turk. rubra25	2.00	15.00
(B) 18 in. Purple-red flowers, Aug., Sept.			

SANGUINARIA

Bloodroot

COLOR: White. HEIGHT: 6 to 10 in. HABIT: Rich woods soil, not too acid. Partial shade. FLOWERING: Spring. WHEN TO PLANT: Spring.

	Each	10	100
canadensis — Bloodroot	\$.25	\$2.00	\$15.00
(RW) 8 in. White, April, May.			

SANGUISORBA

American Burnet

COLOR: White. HEIGHT: 3 to 5 ft. HABIT: Shade or partial shade, ordinary garden soil. FLOWERING: Summer. WHEN TO PLANT: Spring or fall.

	Each	10	100
canadensis — American Burnet	\$.25	\$2.00	\$15.00
(BH) 3½ ft. White, July to September.			
minor — Small B.30	2.50	20.00
(BH) 12 in. Greenish-gray foliage.			

PERENNIALS

SANTOLINA

Lavender-cotton

COLOR: Yellow. HEIGHT: 8 to 20 in. HABIT: Sun, ordinary garden soil. FLOWERING: Summer. WHEN TO PLANT: Spring or fall.

	Each	10	100
chamaecyparissus — Lavender-Cotton	\$.30	\$2.50	\$20.00
(BHR) 18 in. Silvery-gray, evergreen; fragrant foliage.			
INCANA — Hoary L.	.30	2.50	20.00
(BHR) 10 in. Similar to above form.			
viridis	.30	2.50	
(BHR) 8 in. Green foliage, yellow flowers, July.			

SAPONARIA

Soapwort

COLOR: Pink. HEIGHT: 6 to 18 in. HABIT: Sun, ordinary garden soil. Excellent for wall garden. FLOWERING: Summer. WHEN TO PLANT: Spring or fall.

	Each	10	100
ocymoides — Rock Soapwort	\$.30	\$2.50	\$20.00
(BR) 6 in. Pink, May to August.			

SATUREIA

Savory

COLOR: White, purplish. HEIGHT: 12 to 15 in. HABIT: Usually grown in the herb garden. Sun, ordinary garden soil. FLOWERING: Summer. WHEN TO PLANT: Spring or fall.

	Each	10	100
alpina — Calamint	\$.35	\$3.00	
(HR) 6 in. Rich purple. Fragrant leaves.			
MONTANA — Winter Savory	.25	2.00	\$15.00
(BHR) 12 in. Fragrant evergreen leaves.			

SAXIFRAGA

Saxifrage

COLOR: White, rose. HEIGHT: 9 to 15 in. HABIT: Sun or partial shade, ordinary garden soil; thorough drainage. FLOWERING: Late spring. WHEN TO PLANT: Spring or fall.

	Each	10	100
CORDIFOLIA — Heartleaf Saxifrage	\$.25	\$2.00	\$15.00
(BR) 15 in. Rose, April, May.			
Macnabiana	.35	3.00	25.00
(BR) 10 in. White, May, June.			
sarmentosa — Strawberry S.	.30	2.50	20.00

virginiensis — Virginia S.	.25	2.00	15.00
(BR) 10 in. White, April, June.			

SCABIOSA

COLOR: White, blue, lavender. HEIGHT: 18 to 24 in. HABIT: Sun, ordinary garden soil. FLOWERING: Summer. WHEN TO PLANT: Spring or fall.

	Each	10	100
caucasica — Caucasian S.	\$.30	\$2.50	\$20.00
(BCR) 18 in. Lilac blue, June to Sept.			
cau. alba — White Caucasian S.	.25	2.00	15.00
(BCR) 18 in. White, June to September.			

PERENNIALS

SCABIOSA — Continued

	Each	10	100
cau. House's Hybrids	\$.35	\$3.00	
(BCR) 18 in. Lavender and blue shades. Large flowers, June to September.			
JAPONICA — Japanese S.25	2.00	\$15.00
(BCR) 18 in. Blue, July to September.			
pennsylvania — See Cephalaria tatar- ica			

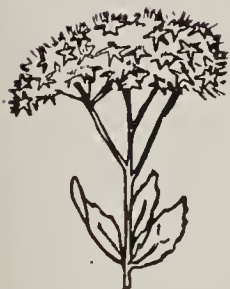

SEDUM

Stonecrop

Sedum represents a large group of low growing plants with fleshy leaves and showy masses of flowers. The taller varieties make good border plants, while the dwarf types are extensively used in rock gardens, wall gardens, between flagstones, and as ground covers. Will grow almost anywhere in any type of soil. Plant in spring or fall.

	Each	10	100
acre — Goldmoss	\$.25	\$2.00	\$15.00
(BGR) 4 in. Yellow, May, June.			
album — White Stonecrop25	2.00	15.00
(GR) 4 in. White, July, August.			
anglicum25	2.00	15.00

(R) 2 in. Yellow, July.			
sexangulare — Hexagon S.25	2.00	15.00
(GR) 3 in. Bronzy foliage.			
sieboldii — Siebold S.30	2.50	
(R) 4 in. Rose pink, blue-gray foliage, April to September.			
SPECTABILE — Showy S.25	2.00	15.00
(BR) 12 in. Rose-pink, August, Sept.			
STOLONIFERUM (spurium) — R u n- ning S.25	2.00	15.00
(R) 4 in . Pink, July, August.			

PERENNIALS

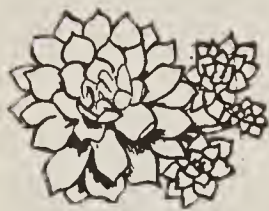

SEDUM — Continued

	Each	10	100
stol. album	\$.25	\$2.00	\$15.00
(R) 4 in. White, August, September.			
stol. coccineum — Scarlet Running S. ..	.25	2.00	15.00
(R) 4 in. Red leaves and flowers.			

SEMPERVIVUM

Houseleek

Houseleek consists of fleshy-leaved mat-forming rosettes which produce heavy stemmed, clusters of flowers. Excellent for dry, sunny places. Plant in spring or fall.

	Each	10	100
arachnoideum — Spiderweb Houseleek .	\$.25	\$2.00	\$15.00
(R) 3 in. Evergreen foliage.			
fimbriatum — Fringed H.25	2.00	15.00
(R) 10 in. Light rose-pink, June, July.			
globiferum — Globe H.25	2.00	15.00
(R) 6 in. Gray foliage.			
tectorum — Roof H.25	2.00	15.00
(R) 6 in. Evergreen foliage.			
tect. violaceum — Violet H.25	2.00	15.00
(R) 8 in. Red, June, July.			

SIDALCEA

Prairiemallow

COLOR: White, soft pink. HEIGHT: 2 to 3 ft. HABIT: Sun, ordinary garden soil. FLOWERING: Summer. WHEN TO PLANT: Spring or fall.

	Each	10	100
ROSY GEM	\$.30	\$2.50	\$20.00
(BC) 3 ft. Soft pink, July, August.			

SILENE

Catchfly

COLOR: White, pink, red. HEIGHT: 4 in. to 1 ft. HABIT: Sun, ordinary garden soil. Thrives in dry places. FLOWERING: Spring and summer. WHEN TO PLANT: Early spring or fall.

	Each	10	100
orientalis — Oriental Catchfly	\$.30	\$2.50	\$20.00
(B) 2 ft. Pink, July.			
saxifraga — Saxifrage C.30	2.50	20.00
(R) 6 in. White.			
SCHAFTA — Schafta C.30	2.50	20.00
(R) 4 in. Rose-pink, June to September.			
virginica — Firepink30	2.50	20.00
(R) 12 in. Bright red, July, August.			

SILPHIUM

COLOR: Yellow. HEIGHT: 6 ft. HABIT: Full sun; ordinary garden soil. FLOWERING: Summer. WHEN TO PLANT: Spring.

	Each	10	100
perfoliatum — Cup Rosinweed	\$.25	\$2.00	\$15.00
(B) 6 ft. Yellow, July to September.			

SMILACINA

COLOR: White. HEIGHT: 2 ft. HABIT: Sun or partial shade, one of most easily grown of wildflowers. FLOWERING: Late spring. WHEN TO PLANT: Spring or fall.

	Each	10	100
bifolia — False Solomonseal	\$.30	\$2.50	\$20.00
(BGRW) 8 in. White, May, June.			

SOLIDAGO

Goldenrod

COLOR: Yellow. HEIGHT: 2 to 4 ft. HABIT: Sun or partial shade. Used for mass effect in meadows or shrub plantings. FLOWERING: Summer and fall. WHEN TO PLANT: Spring.

	Each	10	100
canadensis — Canada Goldenrod	\$.25	\$2.00	\$15.00
(BW) 3½ ft. Yellow, July to October.			
rugosa — Wrinkled G.25	2.00	15.00
(BW) 2½ ft. Yellow, August, September.			
sempervirens — Seaside G.25	2.00	15.00
(BW) 2½ ft. Yellow, August, September.			

STACHYS

Betony

COLOR: Lavender. HEIGHT: 1 ft. HABIT: Partial shade, woods soil. FLOWERING: Summer. WHEN TO PLANT: Spring or fall.

	Each	10	100
LANATA — Woolly Betony	\$.30	\$2.50	\$20.00
(BW) 12 in. Purple, July.			

STOKESIA

COLOR: White, lavender-blue. HEIGHT: 1 ft. HABIT: Sun, ordinary garden soil. FLOWERING: Summer and fall. WHEN TO PLANT: Spring.

	Each	10	100
laevis (cyanea) — Stokesia	\$.30	\$2.50	\$20.00
(BCR) 12 in. Lavender blue, July to Oct.			

TANACETUM

Tansy

COLOR: Yellow. HEIGHT: 2 to 3 ft. HABIT: Sun, ordinary garden soil. FLOWERING: Summer. WHEN TO PLANT: Spring or fall.

	Each	10	100
vulgare — Tansy	\$.25	\$2.00	\$15.00
(BH) 2½ ft. Yellow.			

TEUCRIUM

Germander

COLOR: Lavender-rose. HEIGHT: 1 ft. HABIT: Sun, ordinary garden soil. Splendid as a dwarf trimmed hedge or perennial garden. Often used in New England as a substitute for Boxwood. Evergreen foliage. FLOWERING: Summer. WHEN TO PLANT: Spring or fall.

	Each	10	100
CHAMAEDRYS — Chamadrys German-der	\$.30	\$2.50	\$20.00
(BEHR) 12 in. Rose. July to September.			

PERENNIALS

THALICTRUM

Meadowrue

COLOR: White, yellow, lavender. HEIGHT: 1 to 8 ft. HABIT: Prefer moist meadows or damp sunny places in the wild garden. FLOWERING: Summer. WHEN TO PLANT: Spring.

	Each	10	100
aquilegifolium — Columbine Meadowrue	\$.30	\$2.50	\$20.00
(BW) 3 ft. Cream, May to July.			
aquil. purpureum — Purple Columbine M.30	2.50	20.00
(BW) 3 ft. Purple, May to July.			
diptercarpum — Yunnan M.30	2.50	20.00
(BW) 4 ft. Violet-mauve, August, Sept.			
GLAUCUM — Dusty M.25	2.00	15.00
(BW) 4½ ft. Yellow, blue-green foliage, July.			
minus adiantifolium — Maidenhair M.25	2.00	15.00
(BW) 2 ft. Cream-yellow, gray foliage, June, July.			
paniculatum — Yellow M.25	2.00	15.00
(BW) 3½ ft. Yellow, June, July.			
sulfureum — Hybrid M.25	2.00	15.00
(BW) 3½ ft. Sulphur yellow, June, July.			

THERMOPSIS

COLOR: Yellow. HEIGHT: 4 to 5 ft. HABIT: Sun, ordinary garden soil containing some lime. FLOWERING: Summer. WHEN TO PLANT: Spring or fall.

	Each	10	100
caroliniana — Carolina Thermopsis	\$.25	\$2.00	\$15.00
(BC) 4½ ft. Bright yellow, June, July.			

THYMUS

Thyme

COLOR: White, lilac, pink, crimson. HEIGHT: 2 in. to 1 ft. HABIT: Aromatic herbs much used for edging or ground cover. FLOWERING: Summer. WHEN TO PLANT: Spring or fall.

	Each	10	100
SERPYLLUM — Mother-of-Thyme	\$.25	\$2.00	\$15.00
(BGHR) 6 in. Lilac, July, August.

Dorsett — Outstanding, early75	2.00
Fairfax — Early, equally fine75	2.00
Marshall — midseason75	2.00
Mastodon — everbearing	1.00	3.00

Planting Seasons

SPRING SEASON — Begins as soon as the frost is out of the ground, usually about March 20. Continues until early June, although Evergreens and Perennials can be successfully planted until early June. Early planting, however, is preferable.

FALL SEASON — Evergreens can be transplanted from early August to late November; Perennials during September and October; Deciduous Trees and Shrubs from mid-September to late November. In their respective planting periods, the earlier parts are preferable. — *ORDER EARLY.*

Plant Names

We have endeavored to list our plants in accordance with the names as given in "Standardized Plant Names," which has been officially adopted by the American Association of Nurserymen.

If you have difficulty in finding here any varieties you wish, write us and we will immediately advise you whether or not we can furnish them.

Placing Orders

Orders may be sent to either our office at North Abington, or to Framingham, as you may prefer or find more convenient. In filling orders we shall select the best material from both nurseries.

Shipping Directions

In ordering nursery stock our customers are requested to state explicitly the mode of conveyance by which they wish their stock forwarded. We make shipments by express, freight, or motor truck. The price for all our material is at the nursery and does not include delivery. We can make shipment by motor truck at a moderate charge, provided the order is large enough to make a truckload. When no route or method is designated, we exercise our judgment. In no case do we assume responsibility after packages are shipped, except for our own mistakes. When losses occur by detention or mishandling, claim should at once be made on the transportation company by the consignee.

Conditions of Sale

1. The articles herein listed will be furnished in accordance with the following schedule:
 - 1 to 4 plants of one kind and size will be priced at the each rate.
 - 5 to 24 plants of one kind and size will be priced at the ten rate.
 - 25 or more plants of one kind and size will be furnished at the hundred rate, when hundred rates are given.
 - 250 or more plants of one kind and size will be furnished at the thousand rate, where thousand rates are given.

FROM THIS SCHEDULE WE WILL NOT VARY because of the fact that considerable time is required to assemble an order made up of small lots of kinds that are widely separated over the nursery.
2. We make no charge for packing orders, EXCEPT on very large evergreens, large shade trees, or other ungainly-shaped plants.
3. We give no warranty, expressed or implied, as to quality, description, productiveness of any nursery stock that we sell. The only guarantee that we make is that our stock is alive at time of shipment and true to name. No complaints will be considered that are not made forthwith upon receipt of order. Any stock ordered from this list found untrue to name, will be cheerfully replaced at the first favorable opportunity for planting after it has been found not as ordered.
4. Super-specimen plants, selected by the customer, or by his representative, will be priced according to their individual values.
5. Prices are subject to change without notice.

Terms

Our terms are cash. Charge accounts, for 30 days credit, may be opened upon receipt of satisfactory credit references — allowing us time for investigation. All accounts unpaid after due date will be subject to sight draft without further notice. C. O. D. express shipments will be made (with collection charges added to the bill) only when order is accompanied by a deposit of at least 25 percent of the amount of the bill.

5% DISCOUNT when cash in full accompanies order.

Our Location

AT NORTH ABINGTON, MASSACHUSETTS

Main Offices, 678 Adams Street; Motor Route No. 58 from Boston to Cape Cod, 18 miles south of Boston. Railroad — N. Y., N. H. & H., Plymouth Branch. Telephones — Rockland 26, 27, 28.

AT FRAMINGHAM, MASSACHUSETTS

Office, Cochituate Road (Motor Route 30) — also Route 9 (Boston and Worcester Super-Highway), 20 miles west of Boston. Railroad — Boston & Albany, Main Line. Telephones — Framingham 6191, 6192.

Sales Gardens

We maintain four Sales Gardens located conveniently for residents of eastern Massachusetts as well as Rhode Island, southern New Hampshire and southern Maine. Each Sales Garden is a miniature nursery, and each contains small but ample stocks of the more popular plants as well as many rare sorts.

Here the home gardener can compare the various plants suitable for his use and personally select the actual plants he purchases. Many prefer to take the plants home in their cars; on large orders we can arrange for their transportation. In either case, prompt service is provided at each of our Sales Gardens listed below.

North Abington — Route 58

Framingham — Route 30

Natick — Boston-Worcester Turnpike

Arlington — 854 Massachusetts Ave.
